Albini Ranch Williamson Act Request Proposal:

The Albini Ranch at 17260 Bodega Lane, is a 396 acre agricultural preserve located along Salmon Creek. A portion of it was once known as 17250 but has since been added to the parcel 103-010-037-000 which has all been placed under open space lands, and is actively used for rangeland for dairy cattle, grass hay farmland as well as beef cattle in the future. We currently have no plans for the property and it will remain as an ag operation, for this reason we are requesting it be placed into the Williamson Act to help protect agriculture for future generations.
