

Proposal Statement for AGP19-0001

Rescind and Replace the existing Non-Prime Type II land conservation contract on Lot Line Adjusted parcel A. The approved LLA transferred 152.9 acres of riparian corridor and hay land (Lot B former APN 068-190-015) not currently under contract to the existing 825.6 acre Lot A. In exchange, 152.9 acre portion of Lot A currently under contract and developed with hunting club facilities and a clay shooting range was transferred to Lot B. This project, AGP19-0001, replaces the Non-Prime Type II agricultural contract on 825.6 acres with a new Type II Agricultural contract.
