Adopt a Gold Resolution of the Board of Supervisors of the County of Sonoma, State of California, Proclaiming September 2022 as Prostate Cancer Awareness Month

Whereas, prostate cancer is the most frequently diagnosed cancer in men and the second leading cause of cancer deaths in men; and

Whereas, one in eight men have a lifetime probability of developing prostate cancer. One in eight women also have a lifetime probability of developing breast cancer; and

Whereas, the American Cancer Society estimates there will be 268,490 new cases of prostate cancer in the USA in 2022, resulting in an estimated 34,500 deaths; and

Whereas, it is estimated 26,890 men in California will be diagnosed with prostate cancer this year and it is estimated 4,130 California men will die from this disease this year; and

Whereas, the incidence of prostate cancer is almost 73% higher in non-Hispanic Black men than in non-Hispanic White men for reasons that remain unclear; and

Whereas, Prostate cancer death rates declined in the mid-1990s to mid-2021s due to earlier detection through PSA testing and advances in treatment; and

Whereas, the 5-year survival rate approaches 100% when prostate cancer is diagnosed and treated early, but drops to 31% when it spreads to the other parts of the body; and

Whereas, risk factors for prostate cancer are increasing age, African ancestry, a family history of the disease, and certain inherited genetic conditions; and

Whereas, the American Cancer Society recommends that men have a conversation with their health care provider and make an informed decision about whether to be tested for prostate cancer; and

Resolution #22-
