

Climate Resiliency Fund Project Scoring Breakdown

County staff evaluated 19 potential projects for funding from the Climate Resilience Fund (CRF) using the Climate Action, Resilience and Equity (CARE) Framework. This attachment describes the scoring breakdown for each project in all nine of the CARE Framework subcategories. For an explanation of the CARE Framework and scoring subcategories, please see the CARE Framework Overview Attachment. Funding recommendations are tiered and based on these scores (Performance Points) and the associated County Cost. The key for the tiered recommendations is as follows:

Key

Color	Tier	Recommendation
Dark Green	Tier 1	Strongly recommend for funding
Light Green	Tier 2	Recommend for funding
Yellow	Tier 3	Consider for funding
Red	Tier 4	Further develop for Round #2

(Total Performance Points = Sum of all points assigned below)

Performance Cost Rank	Project Name	Department	Total Performance Points (A)	County Project Cost (B)	Performance Cost (= B / A)	Climate Action, Resilience and Equity (CARE)					Strategic Alignment	Strategic Leveraging
