The Board gave direction to proceed with modified ERG recommendations, removing the role of CEO staff related to leading new convenings or new programs. Direction was given to instead negotiate with Fire Safe Sonoma for county-wide wildfire preparedness, coordination and project management, including discussion with the RCDs to explore the appropriate County role, which could look like direct coordination and funding, or, instead supporting FSS to support and coordinate and fund the RCDs through pass-through or subcontracting, based on FSS's role in coordinating county-wide projects and nimbleness – this track to our interest in understanding where we need to support and not lead and get out of the way. Additional direction was given to negotiate with SCTCA regarding enhancing their role in climate coordination outside of wildfire, including discussion regarding county representation.

The Board also directed Staff bring back the draft agreements for approval.
