Subject: Cannabis Ordinance and Community Input
Date: Thursday, March 21, 2019 8:34:30 AM

Dear Supervisor Hopkins -

I am writing to express my support for the inclusion of robust community input regarding the county's Cannabis Ordinance. My understanding is that "Phase II" can include funding for staff time to gather and suggest implementation of issues such as neighborhood compatibility and and environmental concerns. I urge you to support and fund the inclusion of these constituent inputs.

Good wishes

Bob Engel

Subject: Cannabis Regulations - Phase 2
Date: Sunday, March 24, 2019 9:57:32 AM

We are writing because of our ongoing concerns regarding Cannabis operations in Sonoma county. These concerns include traffic and tourism on mainly rural roads, especially one-way and dead end roads next to residents. Also, odors from cannabis grows, air quality, water usage, safety, crime and setbacks to residents. Sonoma county urgently needs regulatory amendments to address these issues. The Board of Supervisors and county planners need to add neighborhood and environmental protections as regulations for commercial cannabis grows move forward.

We understand Phase II was unexpectedly postponed, which was to allow for public input. We **urge you to formally include Phase II in the 2019-2020 work plan at your April 16 meeting.**

Thank you for your time and consideration.

Sincerely,

Nyla Fleig

Dear Supervisor,

I urge the board to fund and schedule staff time to add neighborhood and environmental protections to the Cannabis Ordinance as you work to develop the two year work plan for 2019 and 2020.

I have concerns about cannabis operations coming to our county and to our neighborhoods.

My concerns include odors/air quality, traffic, neighborhood security/crime risk, road/fire safety, water availability, cannabis tourism, concentration of projects, or setbacks to residences.

With respect,

Nancy Rowinsky

Subject: Petition you requested

Hi Jane. Here is the petition that you requested for the Board meeting on 4/16/19.

We continue to gather signatures and are up to approximately 500 from all over the County. I am surprised that the Update of the Tree Ordinance was never worked despite being on the Work Plan about two years ago. The energy around the concept of a Green New Deal is exciting and modern small farmers, the local Democratic Central Committee, and many groups are educated on it and support it. The update of the Tree Ordinance as a stand alone document epitomizes much of what is embodied in this movement.

We sincerely hope that the Tree protection Update gets on the County's Work Plan this time and is completed. As you may know, the trees are still being bulldozed and there is, amazingly enough, nothing to stop them. Thank you for all you do every day on behalf of all of us.

Subject: Phase 2 of cannabis ordinance

Dear Ms. Riley,

We, the ordinary citizens of Sonoma County have been shocked by how Group 420(as they call themselves) have taken it on themselves to ignore the directions of our elected officials (The Board of Supervisors) and place clearly biased provisions towards the cannabis industry into the ordinance.

Neighborhood compatibility was to be the focus of Phase 2, being that it was virtually ignored in Phase 1. It is vital that Phase 2 be funded so that these areas such as fire-safe roads, odor, setbacks, overconcentration be addressed. It is clear that staff will not address these

matters unless pressed to do so with additional time and effort by the BOS. There is no need to hold workshops or appoint another advisory committee. The information is already there. All that needs to be done is that staff be directed in Phase 2 to present this information to the BOS for discussion and implementation of this very contentious ordinance.

Subject: Phase II of Cannabis Ordinance - input

Dear Ms. Riley,

I am writing to you and each of the County Supervisors asking that community concerns and input be **included in the 2019-2020 work plan for Phase II** of the cannabis ordinance be **initiated NOW** rather than later, to address the Neighborhood Compatibility component of cannabis policy (neighborhood and environmental issues). There are significant issues that impact neighborhoods including odors/air quality, traffic, neighborhood security/crime risk, road/fire safety, water availability, cannabis tourism, concentration of projects, or setbacks to residences. I am particularly concerned about the impact of these operations in residential neighborhoods in throughout the County. These need to be addressed NOW as new businesses are emerging in this newly legal industry. **Otherwise neighborhoods and the county will be faced with addressing time consuming and inefficient case by case conflicts over development.**

I appreciate your attention to this issue. I plan to attend the April 16th Board meeting when you will be addressing the Cannabis Ordinance decisions.

Sent: March 30, 2019 1:05 PM
To: Jane Riley <Jane.Riley@sonoma-county.org>
Subject: Phase II of the Cannabis Ordinance

Dear Ms. Riley,

Our neighborhood group, Friends of Graton (FOG) was pleased that the County recognized in 2018 that the West County Trail and Joe Rodota Trail are parks and subject to the 1000' setbacks for cannabis operations. We were anticipating having the opportunity to make comment during the Neighborhood Compatibility Phase II of the Cannabis Ordinance in early 2019, as was scheduled. We are troubled that instead, the County appears to be planning to analyze this issue through public comment during the process of approximately 138 applications. This is an unreasonable approach to land use decisions. FOG considers trails and parks as extensions of our neighborhoods, and we have concerns that the 1000' setbacks will be whittled away in this haphazard approach.

Few members of the public have the wherewithal to read, comprehend and then respond, in writing or in person, to over 100 applications. This decision will, in effect, stifle public participation in a process that has the potential to radically change the living conditions of thousands of people. You have placed the burden of determining impacts on the public and expect that will result in a fair determination of the potential negative effects of a new and un-tested ordinance.

We urge the supervisors to approve Phase II of the Cannabis Ordinance, which will address neighborhood compatibility, an agenda item of the Permit Sonoma 2-Year Plan at the April 16 meeting, and to initiate a plan to address the issue outside of the individual hearing processes.

Cannabis Ordinances revisions are necessary.

Please give the funding for a comprehensive work plan for the Cannabis Ordinance Revisions /Phase 2.

No action on the Phase 2 means that there are no Cannabis regulation problems or the political system does not care about the the regulated Cannabis program.

I feel these are critical times where planning and good regulations are most important.

Hi Kimberly, not yet! The Work Plan is scheduled for 16 April in front of the BOS. The Board office will post a link to the staff report about 5 days before the meeting. There is no discussion related to oak woodlands, only the option to have us work on a tree ordinance.

You're on the list to receive the staff report once it has been released by the BOS – we don't send it out before the Board is ready.

Thanks!

Subject: Two work plan

Hi Michelle: Hope you are able to keep your head above water, so speak, at the county these days.

I am interested in the County's meeting that will address the Two Year Work plan for Permit Sonoma.

Do you have any information on this...draft documents, hearing dates,?

Maybe if you know who at PS is in charge of that process, I can check in with that person if that easier.

Thank you.Take good care,

Kimberly

"Balance - When we are urged to weigh the environmental impacts against the interests of developers, consider this...."We've lost nearly two-thirds of the world's wildlife since the first Earth Day 48 years ago."

Subject: Yes to funding of phase 2
Date: Monday, March 11, 2019 11:22:05 AM

Cannabis Ordinances revisions are necessary.

Please give the funding for a comprehensive work plan for the Cannabis Ordinance Revisions /Phase 2.

No action on the Phase 2 means that there are no Cannabis regulation problems or the political system does not care about the the regulated Cannabis program.

I feel these are critical times where planning and good regulations are most important.
