## **Exhibit A: Scope of Work**

### **I. Program Narrative/Description**

#### **A. Statement of Need**

Families with active Child Protective Services (CPS) cases in Family Preservation, Maintenance or Reunification have current and intensive needs for support and education around parenting and/or accessing community resources. These families have current risks or safety issues in their family home that warrant child welfare involvement and placement of the children with other caregivers while the parents remediate the issues that created safety concerns. Additionally, supported visitation is necessary and legally required in order to support the ongoing relationship between parents and children while a family is receiving reunification services.

Families participating in Client Support Services will often be challenged by the fact that they are part of an active child welfare case; families will often be reluctant to engage and non-responsive to attempts to engage in services. This may particularly be true for non-voluntary, court-ordered clients. The Contractor will need to proactively and intentionally reach out to families in order to achieve expected outcomes for client participation.

#### **B. Purpose and Goals**

The intent of Client Support Services is to improve family functioning to prevent future child maltreatment, to provide education and support to remediate child welfare issues and to produce the conditions that enable a child to remain home or to be safely returned home. Visitation services are provided to parents who have had children removed from their home by the child welfare system. As a result of these services, parents will:

1. Demonstrate an increased ability to meet the emotional and basic needs of their children through positive parenting.
2. Demonstrate increased understanding and skills to enhance the parent/child relationship.
3. Learn child management techniques; awareness of age-appropriate child behaviors and needs; and how to facilitate problem-solving.
4. Demonstrate the ability to provide a safe home for their children and attain the skills to access the resources required to meet their children's basic material needs.
5. Maintain a relationship with their child during the course of their Child Welfare case through the provision of Supported Visitation.

#### **C. Program Components**

Contractor shall provide services based on the Human Services Department (HSD) referral that may include supported visits, parenting services, resource assistance/intensive case management or an integration of parenting and visitation.
