Support for Closed Session Item No. 2:

I request that you conduct a closed session on December 4, 2023, to discuss significant exposure to litigation. Based on existing facts and circumstances, there is a significant exposure to litigation and a threat to litigation has been made against the County. Specifically, the County has received a credible threat of litigation via email from Michelle Patino dated November 17, 2023.

Additionally, the County has received a credible threat of potential litigation relating to St. Vincent De Paul through emails coupled with the quotes featured in the *Press Democrat* article of November 28, 2023 by Andrew Graham entitled "Nonprofit director says he was misled on bidding process for homeless site, wants Sonoma County supervisors to intervene."

A handwritten signature in black ink, appearing to read 'R. Pittman', with a long horizontal line extending to the right.

Robert Pittman, County Counsel
