Please describe your relevant experience/expertise that you believe would make you a valuable member of this body.

I am a semi-retired psychologist with a long history working in community mental health and in graduate education programs. Additionally, I am the mother of a daughter who has been in the mental health system with a serious mental health diagnosis which has impacted her life. As a mother I have experienced the struggles getting her the help that she needed from the time she was in grade school and now providing support for her to gain independence in her life.

Interests & Experiences

What interests you most about this agency? What skills or experience would you bring to best support the work of this agency?

I have visited the Mental Health Board when I used to work in the County in a local agency. I am aware of the work in implementing the MHSA values and a recovery orientation. When I was working in Berkeley Mental Health I was in charge of several aspects of bring MHSA to life when it was first adopted, including work on cultural competency with the Ethnic Services Manager and with Family Services. I now live in Sonoma County, am mostly retired and would like to be involved at this level of the BH system. I have a lot of both personal and professional experience that I can bring to the table.
