Narrative Explanation of Fiscal Impacts:

The new license program will require additional staff resources or contract services to run and monitor the program. The license renewal fee would be the same as, and substituted for, the current Vacation Rental monitoring fee, which would end with the new ordinance, resulting in no new costs to Vacation Rental operators. Staff currently spends time renewing the zoning permit annually and instead would expend the same effort renewing the license annually. The total number of Vacation Rentals is continuously varying but averages between 2,300-2,400, including the coastal zone, and the existing fee structure will generate more than \$500,000 annually. This is anticipated to be adequate to fund staffing and contract services necessary to administer and operate the program and would be subject to fee studies and adjustments in the future. No additional general funds are needed to operate the program.
