

COUNTY OF SONOMA

575 ADMINISTRATION
DRIVE, ROOM 102A
SANTA ROSA, CA 95403

SUMMARY REPORT

Agenda Date: 1/27/2026

To: The Board of Directors of the Sonoma County Water Agency
Department or Agency Name(s): Sonoma County Water Agency
Staff Name and Phone Number: Grant Davis 547-1911, David Royall 521-1892
Vote Requirement: 4/5th
Supervisory District(s): First

Title:

Receive Report and Make Findings to Continue Emergency Work to Stabilize Dangerous Conditions Resulting from a Pipeline Break within the Sonoma Valley County Sanitation District's Reclamation System. □

Recommended Actions:

Receive Report and Make Findings to Continue Emergency Work to Stabilize Dangerous Conditions Resulting from a Pipeline Break within the Sonoma Valley County Sanitation District's Reclamation System (First District) (4/5th Vote Required)

Executive Summary:

This item requests that the Board of Directors for the Sonoma County Water Agency (Sonoma Water), receive a report on emergency actions taken to stabilize hazardous conditions resulting from a pipeline break within the Sonoma Valley County Sanitation District's Reclamation System and continue to suspend competitive bidding requirements.

Discussion:

On December 31, 2025, staff at the Sonoma Valley County Sanitation District's Treatment Plant identified a leak in the District's reclamation pipeline. Staff located and isolated the broken section and stopped discharges from the pipeline. Staff estimate that the broken reclamation pipe had released about 700,000 gallons of treated reclaimed water into Schell Slough in Sonoma Valley. □

As described in the Board's January 6, 2026, □ emergency declaration, the pipeline break occurred in an area subject to tidal influence and adjacent to a levee, creating challenging site conditions and increasing the risk of erosion and instability. Due to severe weather and tidal flooding, the repair activities requiring excavation and heavy equipment access have been temporarily limited.

Once weather and site conditions allow, additional assessment and investigation will be conducted to better define the extent of damage and to finalize repair methods. Given the uncertain subsurface conditions and the potential for additional damage to be revealed during the investigation, staff anticipate that emergency repair actions may need to continue to promptly stabilize additional hazardous conditions as they are identified.

Prior Board Actions:

1/6/2026: Resolution Making Findings of an Emergency Need to Perform Work to Stabilize hazardous conditions resulting from a pipeline break in the reclamation distribution system

FISCAL SUMMARY

Expenditures	FY 25-26 Adopted	FY 26-27 Projected	FY 27-28 Projected
