

I request the Board of Supervisors conduct a closed session on November 28, 2023 to discuss significant exposure to litigation. Based on existing facts and circumstances, there is signification exposure to litigation and a threat of litigation has been made against the County in regard to the County's cannabis business tax ordinance. Such threat was made to me during a phone call with counsel for the Property Owner at 2401 River Road, Windsor, which occurred on October 4, 2023.

Kristin Horrell
Deputy County Counsel
