- Local COVID-19 Data Tracking
- Disparities in Infection Rates by Race/Ethnicity
- Case trends
- ACS/NCS Updates
- Community Health

Blueprint for a Safer Economy

- On August 28th, Governor Newsom introduced the *Blueprint for a Safer Economy*, a new four tier structure for reducing COVID-19 with revised criteria for loosening and tightening restrictions on activities.
- This framework replaces the former County Data Monitoring criteria

Four Tiers

Higher Risk → Lower Risk of Community Disease Transmission				
	Widespread Tier 1	Substantial Tier 2	Moderate Tier 3	Minimal Tier 4
Measures*				
New cases^{**}/100,000 population per day (<u>7 day average</u>; 7 day lag)	>7	4-7	1-3.9	<1
Testing % Positivity (<u>7 day average</u>; 7 day lag)	> 8%	5-8%	2-4.9%	<2%

Description of Tiers

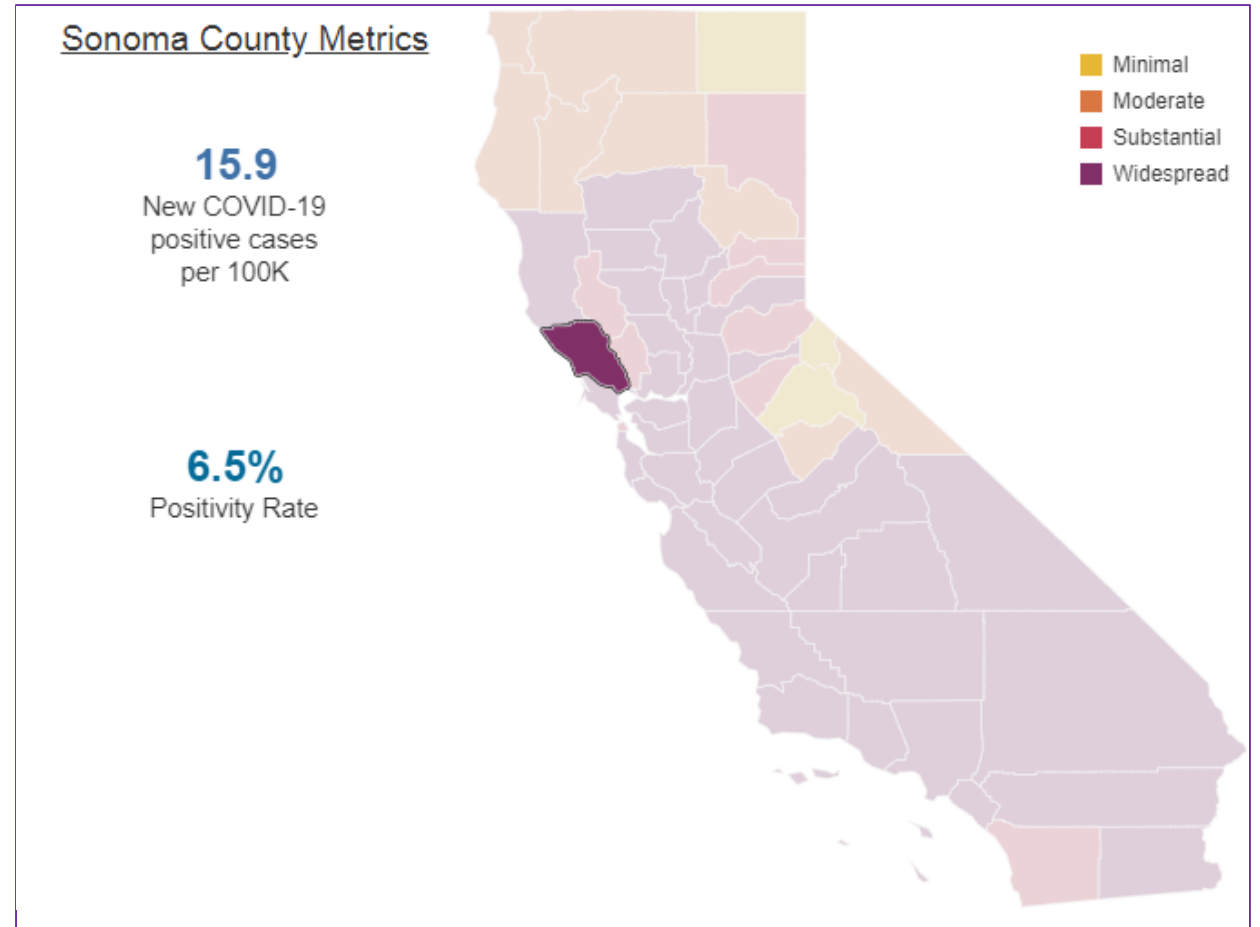

- **Tier 1: Widespread**
 - many non-essential business operations are closed.
- **Tier 2: Substantial**
 - some non-essential business operations are closed.
- **Tier 3: Moderate**
 - some indoor business operations are open with modifications.
- **Tier 4: Minimal**
 - most indoor business operations are open with modifications.

Tier Assignment Process

- Every county in California is assigned to a tier based on its rate of new cases and positivity.
- At a minimum, counties must remain in a tier for at least 3 weeks before moving forward. Data is reviewed weekly and tiers are updated on Tuesdays.
- To move forward, a county must meet the next tier's criteria for two consecutive weeks. If a county's metrics worsen for two consecutive weeks, it will be assigned a more restrictive tier.
- The State plans to introduce an equity measure that will also factor into tier placement.

Sonoma County's Status

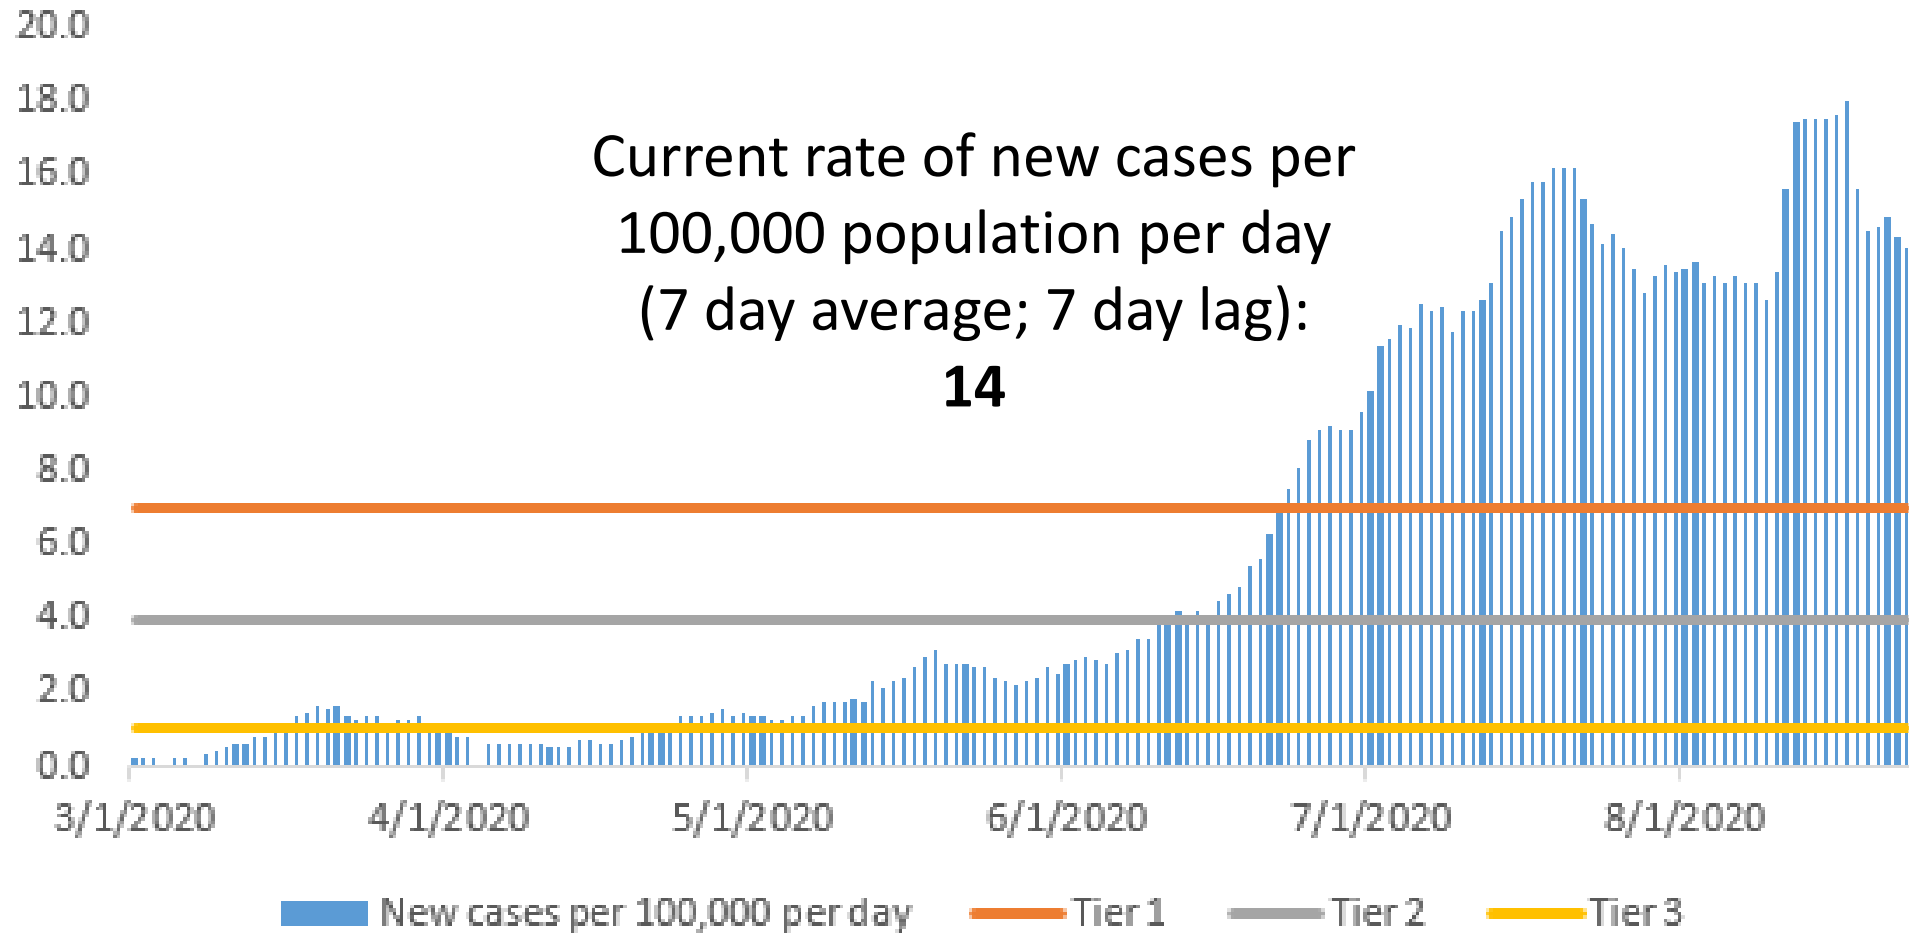

- Sonoma County joins 38 other counties on the most restrictive tier, **Tier 1: Widespread**

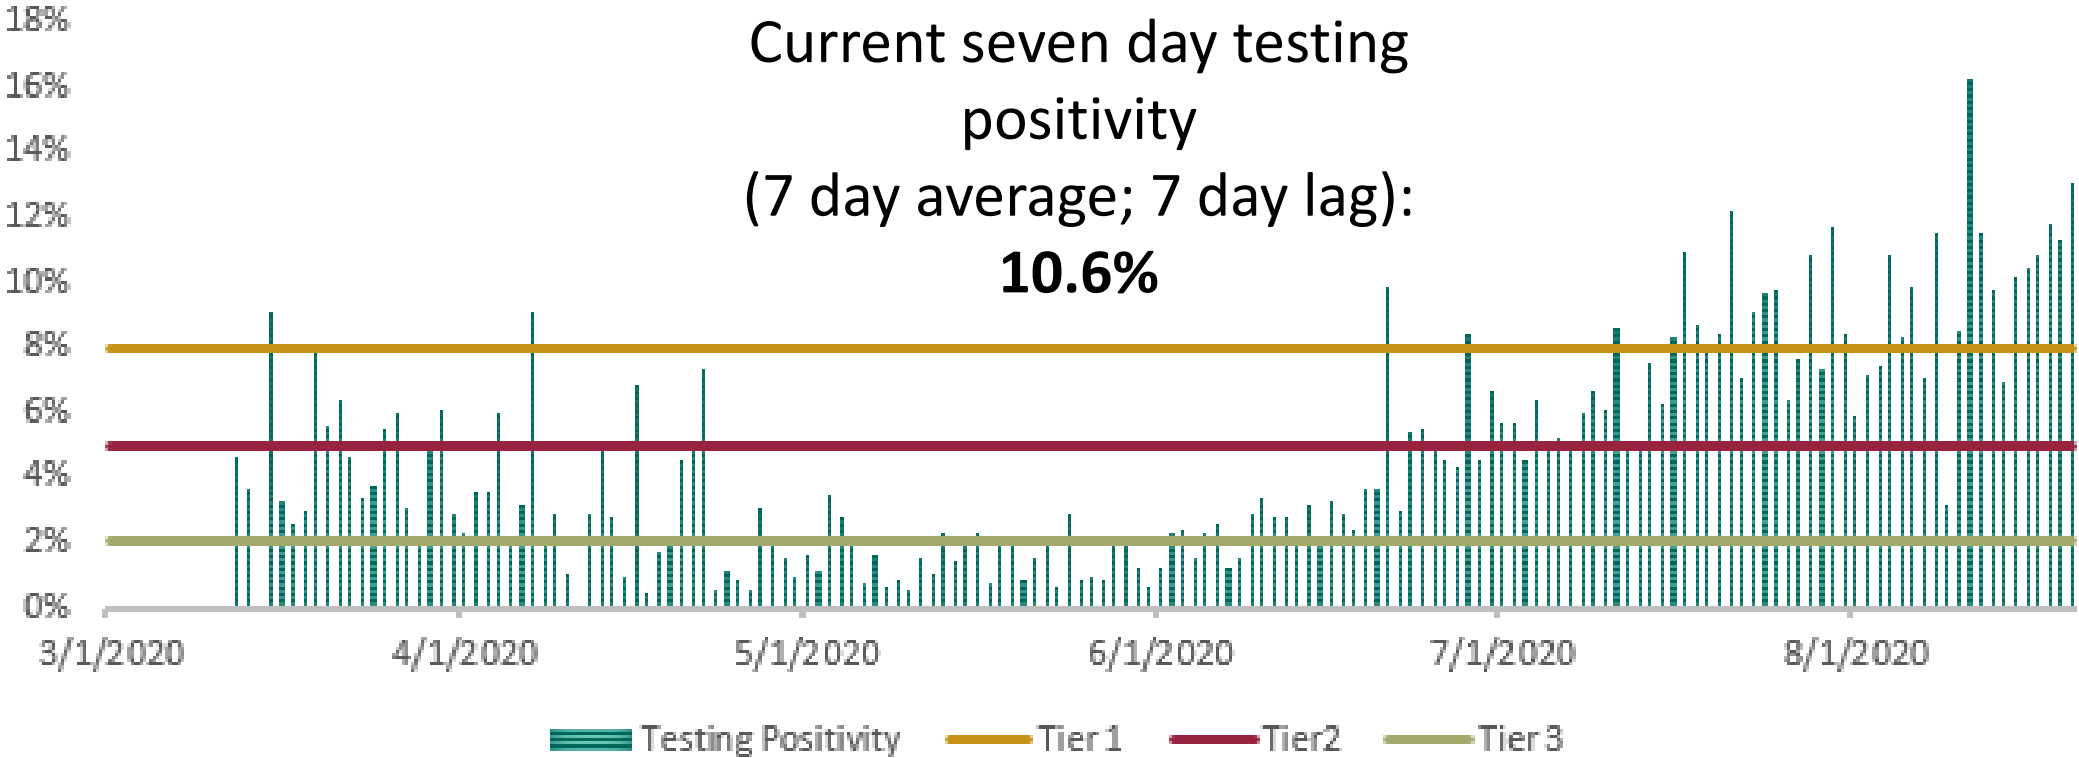

Implications for Local Businesses and Schools

- Indoor barbershops, hair salons and malls may re-open with safety modifications
- Schools in counties within Tier 1 are not permitted to reopen for in-person instruction, with an exception for waivers granted by local health departments for TK-6.
- A listing of all activities permitted by tier can be found at: <https://covid19.ca.gov/safer-economy/>

New Cases per 100,000 Population per Day

Testing Positivity

Testing Volume

- Average tests per 100,000 population per day: **145**
- Currently, below State minimum of 150 per day

Role of Health Centers in Testing

- Substantial contributor to testing activities
- A significant source of services and testing among Latinx community

Measure of Infection Spread to Additional Contacts

- The R-effective refers to the average number of additional people who are infected by each COVID-19 case (<1 decreasing spread, >1 increasing spread)
- Sonoma County currently has the 5th highest R-effective in the State (.96). This may be due, in part, to case finding efforts, extensive field testing in congregate settings, and systematic testing of close contacts.

State Modeling Information

- The California COVID-19 Assessment Tool (CalCAT) brings the best COVID-19 models together in one place to support policy and public health action.
- By providing ensemble estimates of critical COVID-19 metrics from a variety of models, the site facilitates comparison, discussion, and clarity about trends in the pandemic.

Cases among SNF/RCFE Staff and Residents

Cases at SNFs and RCFEs by Facility Type

Containment and Prevention at Skilled Nursing and Residential Care Facilities

- Updated guidance was distributed to Skilled Nursing Facilities and Residential Care Facilities to help prevent spread
- Sonoma Specialty taking cases near recovery to offset hospital impacts

Source of Infection, Recent Cases

7.1.2020 – 8.8.2020

- Of the 2289 cases reported over the last 5 weeks, 1829 have been evaluated for exposure (80%)
- Of the 1829:
 - 68% Close Contact (N=1244)
 - 13% Community Acquired (N=232)
 - 4% Travel (N=72)
 - 15% Exposure Unknown (N=282)

Source of Infection, Close Contact

7.1.2020 – 8.8.2020 (N=1244)

- 50% had **household contact** with a known case (N=624)
- 21% associated with **workplace** (N=265)
- 2% had both **workplace and household** (N=25)
- 9% were associated with **congregate care** (N=117)
- 9% were associated with **gatherings** (N=110)
- The remaining 9% were associated with other, unclassified or unknown exposures

Source of Infection, Community

7.1.2020 – 8.8.2020 (N=232)

- 68% of cases had no known exposure (N=158)
 - Interview did not mention grocery stores, gatherings or any specific event that could be likely exposure
- Of the of cases who listed some exposure:
 - 14% listed **gatherings (N=33)**

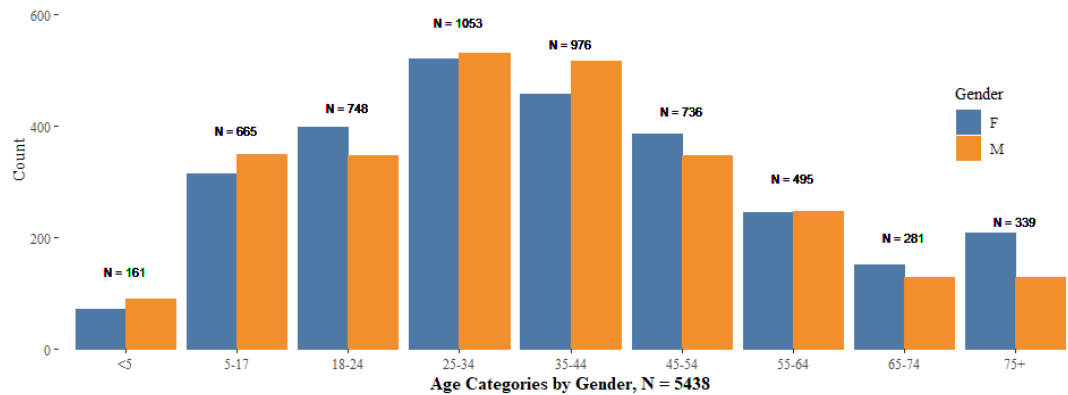

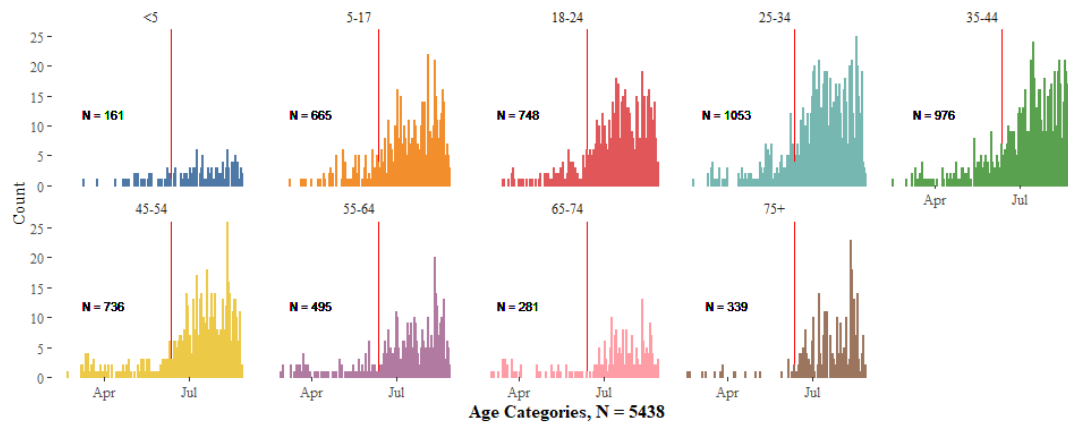

Occupation Trends

- Elevated cases numbers in:
 - Agriculture
 - Construction
 - Health Care
 - Retirees
 - Sales and Services
 - Unemployed
- Fields with higher contact rates
 - Agriculture
 - Health Care
 - Sales and Services

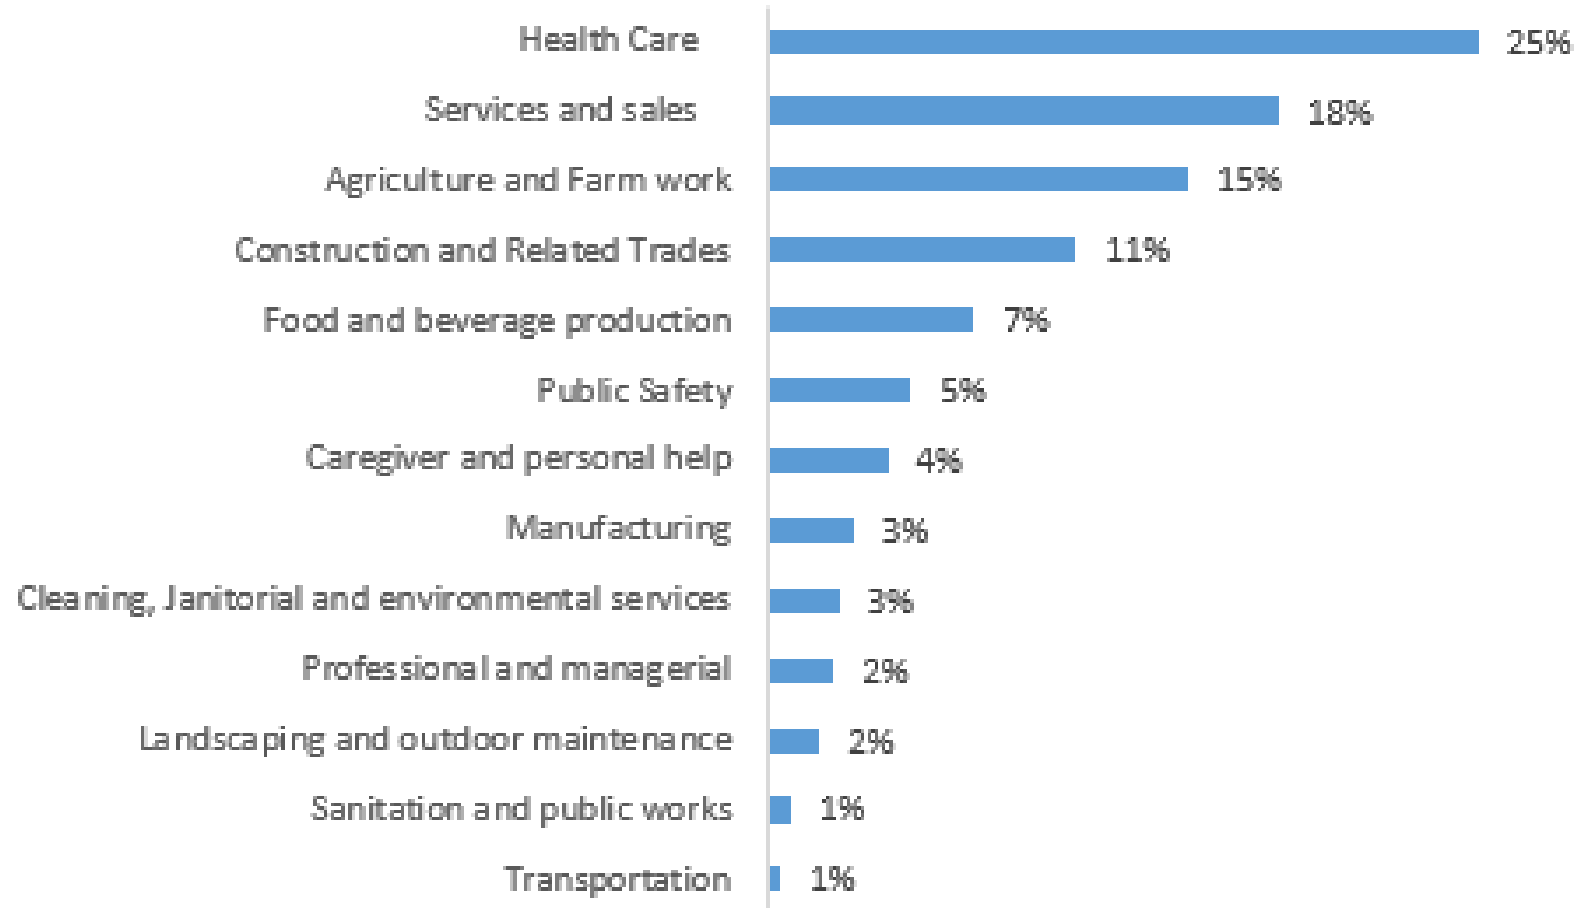

Age Trends with Gender

14 Day Rolling Means, 7 Day Lag

Industries with Workplace Transmission(n=583)

Disparities in Infection Rates

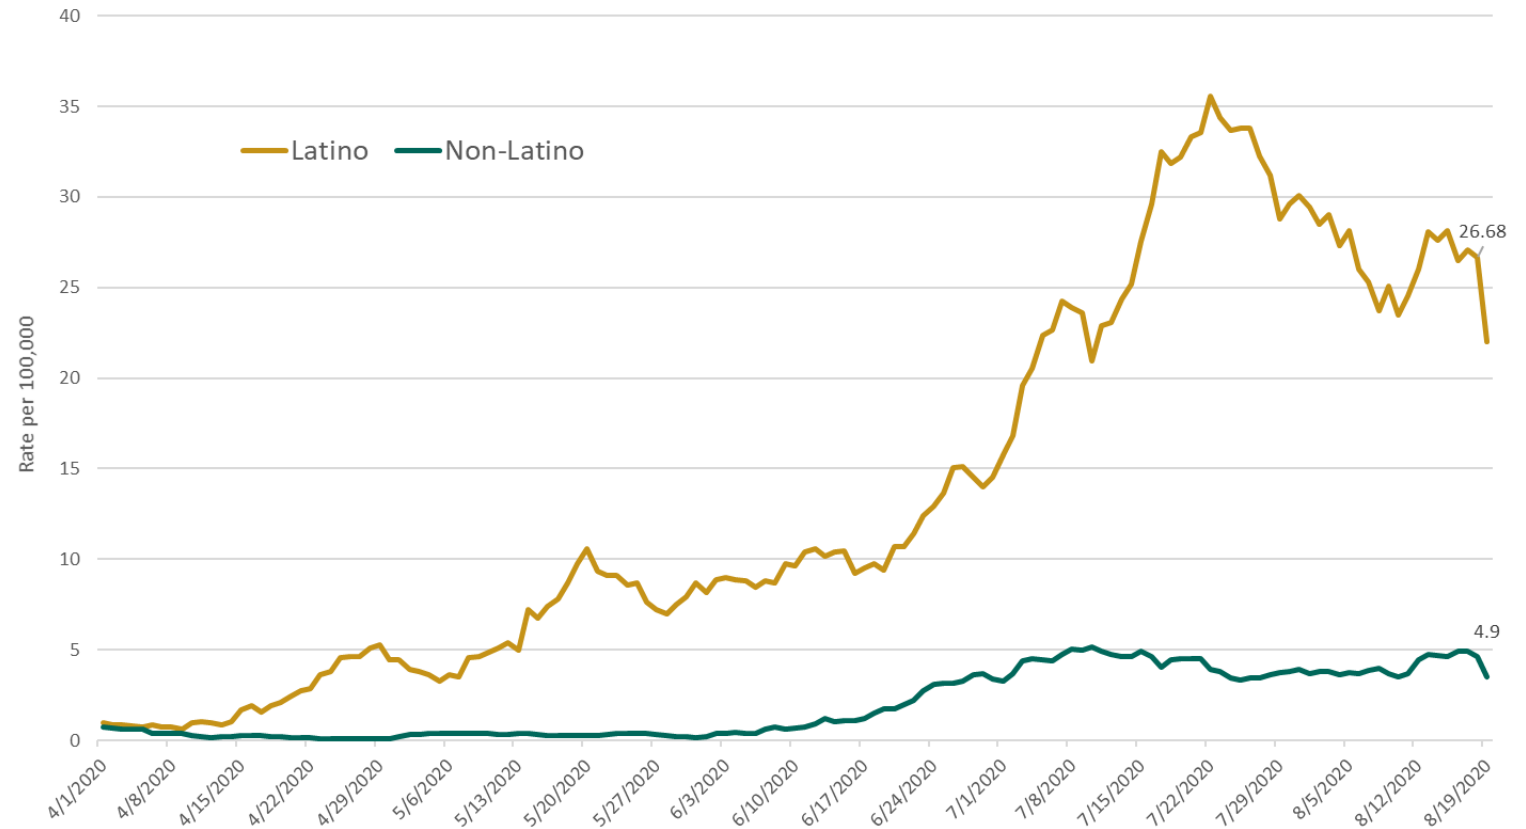

- Disproportionate number of COVID-19 cases in Latinx community
- As compared to non-Latinx cases, Latinx COVID-19 cases are:
 - younger (86% are under 50)
 - more often due to close contact transmission
 - More often show no symptoms
 - Less likely to have an underlying condition or be hospitalized

Sonoma County Cases by Race/Ethnicity

Race/Ethnicity	Number of Cases	Percent of Cases	Percent of Population
Hispanic/Latino	2,855	50%	25.6%
White, non-Hispanic	881	16%	64.2%
Asian/Pacific Islander, non-Hispanic	104	2%	5.2%
Black/African American, non-Hispanic	41	1%	1.7%
Multi-Race	56	1%	2.3%
Other	87	2%	
Unknown	1,630	29%	

COVID-19 7 day average case rate/100,000 by ethnicity, Sonoma County through 8/19/2020

- The 7-day moving average case rate per 100,000 for Latinos remains higher than for non-Latinos (more than 5 times higher on 8/18/2020)

Most Common Employment Sectors of COVID Positive Individuals, by Race/Ethnicity

Latinx (n=1,670)	White, Non-Hispanic (n=594)
Services and sales (17%)	Not working (36%)
Agriculture and farm work (15%)	Services and sales (18%)
Unemployed (12%)	Health care (11%)
Health care (9%)	Professional and managerial (9%)
Construction and related trades (9%)	Construction and related trades (6%)

Agriculture and Farmworker case info

4,217 total cases of COVID-19 in Sonoma County with employment information

- 307 (7.3%) described working in the Agriculture and Farm Work sector (report date March 31st-August 22nd).

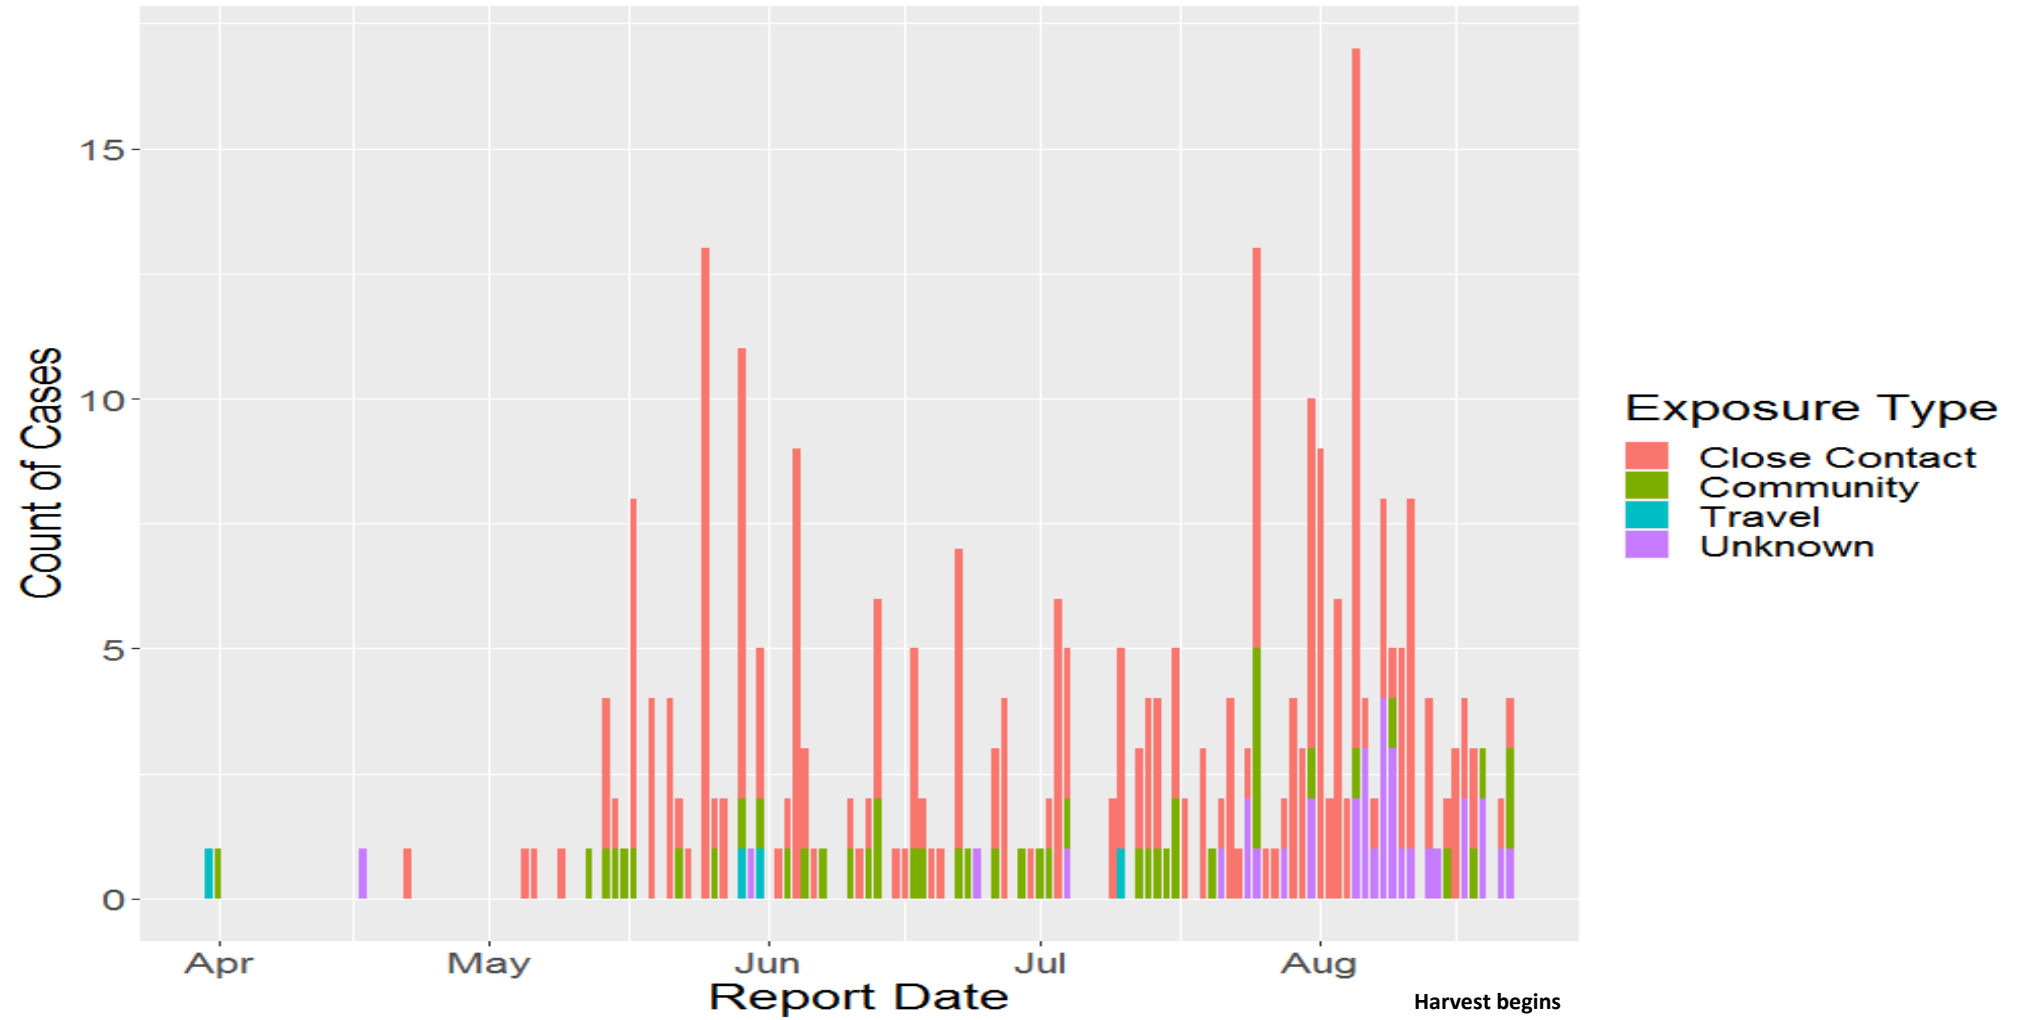

Field workers – 168 (55%)
Unknown/did not disclose– 102 (31%)
Bottling/warehouse/packaging– 16 (5.2%)
Owner/Manager/Supervisor/Foreman – 10 (3.3%)
Contractor – 4 (1.3%)
Machine operator – 3 (1%)

Sales and services – 3 (1%)
Grape room – 2 (0.7%)
Factory worker – 2 (0.7%)
Handyman – 1 (0.3%)
Inventory – 1 (0.3%)
Cleaning/janitorial – 1 (0.3%)
Horse care – 1 (0.3%)

Clusters and Exposure

- A total of 77 unique Vineyard/Wineries/Farms were noted as place of work
 - 90 (29%) participants did not mention place of work
- 12 clusters with 5 or more positive cases
 - Range: 5-36 confirmed cases
 - Average = 10
 - Median = 6
- 93 (30%) noted workplace as confirmed or likely place of exposure
- Analysis does not include winery/tasting room customers who noted “winery” as place of exposure

Case Timeline

Demographics

- Race/ethnicity
 - Of 307 Agricultural workers
 - 268 Latinx (87%)
 - 7 NH/White (2.2%)
 - 1 Other/NH
 - 31 Unknown/did not disclose
- Gender
 - 247 Men; 59 Women
- Age
 - Range 17-77 years

Hospitalizations

- 2 children required hospitalization, both under age 5
- MIS-C cases (0-22 years)
 - 2 MIS-C cases
 - One under age 5; one young adult

ACS and NCS Updates

- On 8/19, evacuated 25 guests from ACS/Healdsburg BW Dry Creek Inn to Petaluma Fairgrounds.
- On 8/20, evacuated 33 NCS guests from Alliance Redwoods to 7th Day Adventist Church in SR.
- 8/25—NCS relocated back to Alliance Redwoods. All but two people returned to Alliance Redwoods after evacuation.
- 8/26—ACS returned to Healdsburg BW Dry Creek Inn with a census of 0. Currently have 8 clients.
- Currently collaborating with Santa Rosa Fairgrounds (Grace Pavilion) on potential referrals from congregate shelter to NCS sites for those who are eligible.
