Landfill Settlement Agreement Funds - City Contingent Liability Funds

Dear Ms. Rivera,

The Town of Windsor is requesting disbursement of excess City Contingent Liability Funds in the amount of \$600,000 to support community clean-up and waste reduction. It is the Town's intention to apply these funds in two areas: reduction of trash in parks and public spaces, and rodent reduction caused by public waste overflow.

Funding for landscape maintenance was significantly reduced in the current operating budget. The Town intends to use a portion of these funds to offset the impacts seen due to the budget reductions. Landscape areas in the Town that are left unattended have drawn debris creating a potential fire hazard and a magnet for additional waste resulting in the appearance of blight. Additional funds will allow the Town to continue our PTS program for weed abatement and trash pick-up mitigating such appearances.

In addition, the downtown core and several parks have become a health concern due to rodent infestation. Public waste receptacles along sidewalks have been the target of the pests. Although measures to deter the issue have been taken, working within the Town's IPM policies have proven insufficient. The infestation has now grown to a point where residents and restaurants have been impacted. Procurement and installation of "Big Belly" enclosed waste and recycling units has been identified as the most effective option. These units are impervious to rodents with closed lids and metal bases.

Please contact me if you have questions or for further discussion.

Thank you,

Jon Davis (Jan 9, 2026 07:43:59 PST)
