**Title:**

Agreements for FY 2026-2029 Medi-Cal County Inmate Program

**Recommended Action:**

Authorize the Sheriff-Coroner to sign the following documents related to the Medi-Cal County Inmate Program (MCIP) which allows the county to continue participating in the Medi-Cal County Inmate Program and receive federal funding to cover the share of inpatient medical care costs for eligible Sonoma County incarcerated persons:

- A. Agreement with the State Department of Health Care Services for continued participation in the Medi-Cal County Inmate Program for the term starting July 1, 2026. The Agreement will remain in effect until terminated by either party.
- B. Agreement to reimburse the State Department of Health Care Services for administrative costs associated with the Medi-Cal County Inmate Program, for the term of July 1, 2026 through June 30, 2029, for a not-to-exceed amount of \$20,000.
- C. Any additional forms or documents required for participation in the Medi-Cal County Inmate Program from the initial date of April 1, 2016 through June 30, 2029, provided that any such documents are approved by County Counsel and consistent with the provisions of the approved participation and administrative agreements.

**Executive Summary:**

Approval of the proposed agreements will allow Sonoma County to continue participating in the Medi-Cal County Inmate Program ("Program") to utilize funding from Medi-Cal to cover the federal share of inpatient medical care costs for incarcerated persons who are eligible for Medi-Cal. Through this Program, the state will pay approved claims directly to the hospitals providing services to incarcerated persons. In the event the state pays for any costs not covered by federal funding, the proposed agreements require the County to reimburse the State for the non-federal share of these claims. The Agreement also includes state administrative costs of approximately \$5,000 per year. This program will cover both adult and juvenile offenders in the custody of the County.

**Discussion:**

Prior to implementation of the Medi-Cal County inmate program, the County General Fund covered the full cost of medical care for individuals incarcerated in either the County's adult or juvenile detention facilities. The approval of three different pieces of legislation created what is now collectively known as the Medi-Cal County Inmate Program. In 2010, AB 1628 established the Adult County Inmate Program; in 2011, SB 695 established

the Juvenile County Ward Program; and in 2012, SB 1462 established the County Compassionate Release Program. Since passage of these laws, the State Department of Health Care Services has established administrative oversight to implement these programs, which allow the claiming of the federal share of Medi-Cal Funds for inpatient hospitalizations for these specific populations.

Health care services are currently provided in the adult detention facilities through a contract with California Forensic Medical Group (CFMG)/Wellpath, and in the juvenile facilities through a contract with the County Department of Health Services. Prior to creation of the Medi-Cal County Inmate Program, the County was responsible for the cost of hospitalizations of incarcerated persons. With the implementation of the Program in April 2016, the providing hospitals now bill Medi-Cal directly for services provided to eligible incarcerated persons, and Medi-Cal pays the provider at the approved rate. On a quarterly basis, the State Department of Health Care Services bills the County for the non-federal share of these claims.

Implementation of the Program in the adult detention facilities requires intensive, ongoing coordination between CFMG/Wellpath staff, an enrollment counselor contracted through Aliados Health, the hospitals, the County's Humas Services Department (responsible for submitting Medi-Cal applications to the State), and the State Department of Health Care Services. The CFMG/Wellpath and Aliados Health Agreements comply with the regulations of the Program.

In FY 17-18, the Program was still being rolled out and a full year of activity did not occur. In FY 18-19, the County's costs to participate in the Program include State Department of Health Care Services administration fee (\$4,545), and the cost of the Aliados Health contract (\$37,753). The County realized over \$750,000 in savings by participating in the Program. These savings covered the costs of the enrollment counselor and program administrative fees. The County's portion of non-federal costs was approximately \$100,000. However, these costs would have been the County's responsibility regardless of MCIP participation. The non-federal share was \$19,571 in FY 22-23; \$43,487 in FY 23-24; and \$32,874 in FY 24-25. The non-federal costs will continue to vary from year to year as these costs are based on the specific services provided to incarcerated persons. With the exception of Aliados Health staff, the Sheriff's Office, Probation, and Human Services Department are absorbing the workload related to MCIP. Staff recommends entering into these proposed agreements to allow for continued participation in the Program.

**Narrative Explanation of Fiscal Impacts:**

The Sheriff’s Office FY 25-26 Adopted Budget includes \$153,891 to cover Program costs, including \$83,471 for Aliados Health; \$5,420 for the MCIP Administrative fees paid to the State; and \$65,000 for the County’s estimated MCIP share of non-federal costs. Future year estimated costs for the Aliados Health contract and share of non-federal costs are estimated to increase due to inflation and potential growth in jail population and Medi-Cal enrollments. The County’s total cost for Medi-Cal County Inmate Program Administrative Services shall not exceed the following annual amount per the Agreement: \$5,583 for the first year; \$5,750 for the second year; and \$5,923 for the third year. The estimated cost avoidance that will be realized from participating in the Program is incorporated into the Sheriff’s Office FY 26-27 Recommended Budget as reduced expenditures. The Sheriff’s Office can cover the costs for the enrollment counselor, program administrative fees, and non-federal share using General Fund monies that were historically allocated to cover catastrophic medical costs prior to MCIP implementation.
