Emergency Coastal Permit No Public Hearing Required

Date: 9 July 2025

Planner: Jacob Sedgley, (707) 565-1931, Jacob.Sedgley@sonoma-county.org

For a development located within the Sonoma County Coastal Zone.

| | |
|----------------------------|--|
| Application Filing Date: | 16 April 2025 |
| File No: | CPH25-0006 |
| Applicant: | California Department of Transportation |
| Assessor's Parcel No: | 000-000-001 (County Unassigned) |
| Proposed Project Location: | Postmile 19.68, near Bridgehaven Park and south of the Russian River Bridge. |
| Project Description: | Emergency Coastal Permit to allow Caltrans to repair cracking and depression of pavement caused by winter storms at post mile 19.68 on southbound Highway 1. Proposal includes compaction grouting, pipe pile installation, and re-paving. |

This letter constitutes approval of the emergency work you or your representative has requested to be done at the location listed above. I understand from your information and our site inspection that an unexpected occurrence resulting from storm damage requires immediate action to prevent or mitigate loss or damage to life, health, property, or essential public services, pursuant to Section 30624(a) and 30611 of the Coastal Act. I determine that:

- (a) An emergency exists which requires action more quickly than permitted by the procedures for administrative or ordinary permits and the development can and will be completed within 60 days unless otherwise specified by the terms of the permit;
- (b) Public notice has been given, although there may not have been sufficient time for response; and
- (c) As conditioned, the work proposed would be consistent with the requirements of the certified Local Coastal Plan (LCP).

I approve the work, subject to the attached Conditions of Approval. The approval will be included as an Administrative Determination, as Acts and Determinations on the July 22nd, 2025, Agenda of the Sonoma County Board of Supervisors, specifically, under the 'Permit and Resource Management Department: Review and Possible Action on the Following' section.

Scott Orr
Assistant Director

CONDITIONS OF APPROVAL

1. The enclosed form must be signed by the property owner and returned to our office within 15 days.
2. Only that work specifically described above and for the specific property listed above is authorized. Any additional work requires separate authorization from the Director of Permit Sonoma.
3. The work authorized by this permit must be completed within 60 days of this permit.
4. Within 60 days of the date of this permit, the permitted shall apply for a regular Coastal Permit. If no such application is received, the emergency work shall be removed in its entirety and the site restored to its previous condition within 150 days of this permit.
5. In exercising this permit, the applicant agrees to hold the County of Sonoma and the California Coastal Commission harmless from any liabilities for damage to public or private properties or personal injury that may result from the project.
6. This permit does not obviate the need to obtain necessary authorizations and/or permits from other agencies.
7. Any permit issued by a local official pursuant to the provisions of Section 30624 of the Coastal Act shall be scheduled on the agenda of the Sonoma County Board of Supervisors at its first scheduled meeting after that permit has been issued. If, at that meeting, one-third of the members of that governing body so request, the permit issued by the local official shall not go into effect and the application for a coastal development permit shall be processed by the local government pursuant to Section 30600.5.

If the Board of Supervisors requests that the emergency permit not take effect, the applicant must immediately cease all work upon notification by Permit Sonoma staff.

8. For emergency storefront protection projects: If rock is used to construct the protective project, only clean rock shall be used. No fill materials or construction spoils shall be used. Applicant shall promptly remove without the aid of heavy machinery any rock that becomes dislodged and deposited on the beach.

Condition No. 4 indicates that the emergency work is considered to be temporary work done in an emergency situation. If the property owner wishes to have the emergency development remain, a Coastal Permit must be obtained. A regular permit would be subject to all of the provisions of the Local Coastal Program and may be conditioned accordingly. These conditions may include provisions for public access (such as an offer to dedicate an easement) and/or a requirement that a deed restriction be placed on the property assuming liability for damages.

If you have any questions about the provisions of this emergency permit, please contact the Project Planner at (707) 565-1931, Jacob.Sedgley@sonoma-county.org.
