

Redistricting Webinar/Feedback Session - 11/22/2021

Name	Question
Carley Moore	What was the rationale to include RP aside from building the census?
Michael Hilber	The main question is whether Roseland and Moorland should go into District 3. Currently Roseland is in District 5. So if Rohnert Park wants to be in District 3 that would not work if Roseland also went into D3. The way I see it either Roseland needs to stay in D5, to make room for Rohnert park to be in D3, or if Roseland goes to D3, then Rohnert park needs to go to D5.
Paul Konanz	Will the 29th at 11am be virtual also?
Wanda Yost	How is this going to affect RP as far as it's federal funding and public services
Wanda Yost	How does redistricting affect the federal funding and public services

Name	Feedback
Lynn Gleeson	I have never have thought of Rohnert Park as part of west county. They are always have been viewed as part of south Santa Rosa and North Petaluma. Lynn from South Sebastopol.
Julie Thompson	Thank God it isn't final!
Michael Hilber	One thing that is certain, Roseland and Moorland want to be in the same Supervisorial District. Roseland and Moorland want to be considered one.
Michael Hilber	I do not believe that areas west of Santa Rosa city limits should be brought into D3. I have seen the map which shows as far west as Llano Rd going into D3 along with Roseland. The rural areas west of the city limit would be best left in D5.
Michael Hilber	I also think that moving Roseland into D3 is over-rated, since Santa Rosa has annexed Roseland, the primary responsibility is with the City Council.
Keary Sorenson	Moving the city of Rhonert park into district 5 skews the voting power away from the rural portion of district 5 removing our representation
Robert Bulwa	Not immediately of course but eventually for sure (in response to the comment above)
Wanda Yost	I think SSU should be in Rohnert Park
Shari Adams	I'm having a hard time seeing similarities between RP and the coastal Sonoma County and Sebastopol, Please explain
Shari Adams	I totally agree, leave West County in District 5
Chris M	SW Santa Rosa is a community of interest; Rohnert Park is aligned with the community along Hwy 101; ARC should have introduced more than one map; Rohnert Park should be considered part of south Santa Rosa or North Petaluma, not part of Sebastopol. Maps 73407 and 81153 are similar maps submitted by different people; they are viable maps.
Paul K	Canon Manor West is a private road district; does not want to be part of RP;
Val H	Rohnert Park and Roseland should be in D3. Absurd to put RP in a district with Bodega Bay, Ft Ross, Sea Ranch and Anapolis
Dana F	As builders 14 years ago in Canon Manor we were promised by the county that we would not have roads connected as throughways to Bodway. Millions of dollars were spent building in Canon Manor based on promises there weould be no through roads in Canon Manor.
Stacey C	Canon Manor was always intended to be separate from Rohnert Park and Cotati. The residents of Canon Manor want to remain as part of unincorporated Sonoma County / Penngrove

Chris M	SSU is included in map 73407 presented by Rohnert Park
Val H	SSU should be in the same district as Rohnert Park in D3
