Title:

8:40am Jenner Water System Financing

Recommended Action:

That the Board hold a public hearing on the annual written report for County Service Area No. 41 Jenner Zone of Benefit and adopt a Resolution ordering the annual water charge to be collected on the County of Sonoma tax roll in the amount of \$57 per equivalent single-family dwelling for the total amount of \$7,662 for Fiscal Year 2022-2023.

Executive Summary:

State law and regulations require that an annual public hearing be held by the Board of Supervisors to direct that annual loan repayments be collected on the County of Sonoma tax roll. Staff is recommending that the Board adopt the attached Resolution ordering that the annual repayment charge for a loan used for water system improvements be collected on the County of Sonoma tax roll in the amount of \$57 per equivalent single-family dwelling for the total amount of \$7,662 for Fiscal Year 2022-23. There is no change from the prior year.

Discussion:

The Jenner Water System is located in the unincorporated County on the Pacific Ocean (see Attachment 3). The system has one hundred and twenty-three (123) connections, all with a 5/8-inch meter. Of the total accounts, one hundred and sixteen (116) are residential customers and seven (7) are commercial customers. Several of the commercial property owners have more than one meter on their property. There are one hundred and fifteen 115 property owners that have annual assessments on the County's tax roll to repay the loan obtained from the State of California to rehabilitate the water system.

On December 16, 2008, the Board approved a 20-year agreement with the California Department of Public Health for a Safe Drinking Water Loan, in the amount of \$120,000, to fund the purchase, transportation, and installation of a new micro-filtration water treatment plant purchased from the California Water Service Corporation for the then 15-year-old treatment facility to meet more stringent State of California water quality standards. The annual charge levy for repayment of this loan is \$57 per equivalent single-family dwelling per year for the term of the loan obligation. The final payment for this loan will be made in Fiscal Year 2029-30.

Each fiscal year, Health and Safety Code section 5473 requires that the Board of Supervisors, as the governing board for the County Service Areas, hold a public hearing and adopt a resolution directing that the annual

charge levy be collected on the County's property tax roll.

The total annual charge levy to be collected on each parcel is detailed in the attached Written Report, which is a listing of the Assessor's parcel numbers and the dollar amount of the annual charge levy. There is no change from the prior year. The amount of anticipated revenues from the charge levy and the biannual payments to the State of California are budgeted in the Fiscal Year 2022-23 adopted budget for the Jenner Water System debt service funds.

Notice of a Public Hearing was published on September 9, 2022, once a week for two consecutive weeks in a newspaper of general circulation whose distribution includes the Jenner Water System.
