7. AREAS OF ENGAGEMENT

Ongoing operations and administration, public programs and strategic Tolay Park planning are of interest to the Tribe and Regional Parks. The co-management of Tolay Park is an essential strategy for the successful stewardship of the Tribe's ancestral territory and the heritage resources contained therein. The Parties agree the following areas of engagement will serve as the foundation for co-management under this Agreement, consistent with the purpose of this Agreement.

A. Access and Use of Park Resources.

1. Within the constraints of legal authority and its duty to protect park resources, Regional Parks will co-manage with the Tribe to provide access to park resources and places that are essential for the continuation of traditional cultural or religious practices.
2. There may be occasions when Regional Parks provides access to, and the use of, park cultural and natural resources which would not ordinarily be available to members of the

public. This could include use of vehicles for Tribal staff and members in areas where vehicles are not ordinarily permitted, access to cultural and natural resources for activities related to traditional and ceremonial uses, religious practices, and Native American Graves Protection and Repatriation Act, 25 U.S.C. §3001, et. seq., and the California Native American Graves Protection and Repatriation Act, AB 978 (2001), AB 2836 (2018) and AB 275 (2020), related activities such as repatriation and reburial. Regional Parks will provide such access to and use of resources.

B. Cultural Resources Stewardship.

1. The Parties will actively engage in the co-management of activities related to the planning, research, and stewardship of cultural resources in Tolay Park.
2. Cultural resources, tribal cultural resources, and cultural landscapes will be defined and governed by the HPTP, Implementing MOA, and the CRMP. The ultimate treatment and disposition of cultural resources will be determined by the Tribe.
3. The Tribe will provide archeological or cultural monitoring whenever the Tribe recommends monitoring for an undertaking or project.
4. The Parties will designate properties eligible for listing in the National Register of Historic Places and prepare and file the necessary documentation to achieve the listing in the National Register of Historic Places.

C. Traditional Ecological Knowledge.

1. As the ancestral lands of the Tribe include the entirety of the Tolay Park, Regional Parks acknowledges the Tribe holds singular specialized knowledge stemming from their long history and experience with these lands and the resources therein. Regional Parks further acknowledges that such knowledge is critical for a comprehensive understanding of park lands, waters, lake, natural and cultural resources and to meet Tolay Park management objectives. Therefore, co-management using TEK is critical to ensure Tribal views and TEK are part of the management of Tolay Park lands and resources.
2. The health and vitality of the environment of Tolay Park plant and animal communities is of mutual interest to the Parties. To support the success of efforts to restore and support the resiliency of these resources, the Parties will engage in co-management using TEK.

D. Operations and Administration. The Parties commit to co-management for the operation and administration of Tolay Park.

1. This will include, but is not limited to, park administration, services, policy development, visitor access and use, training, permit issuance, maintenance, and coordination with employees, volunteers, and independent agencies and organizations, and related activities.
2. Co-management of the operation and administration of Tolay Park will include the planning, development, and infrastructure for Tolay Park which includes but is not limited to land management, fiscal administration and budgeting, long- and short- range planning, public outreach, design, use and construction of park facilities, and related activities.

E. Interpretation, Education, and Community Engagement.

1. Consistent with management policies, the Parties will co-manage in the planning, development, presentation, and operation of park interpretive programs and media.
2. Currently, interpretive tours and media related to the Tribe's history and culture within Tolay Park are being developed by the Parties. The Parties will engage in co-management to enhance and update existing interpretive programs and associated grounds and facilities and expand interpretation and education about the Tribe's history and culture into other areas of Tolay Park to convey a more rich and complex knowledge of the Tribe and its connection to Tolay Park.

F. Implementation and Agreements. Tribe and Regional Parks will jointly develop policies and procedures to co-manage the areas of engagement identified above, and to guide implementation and administration of this Agreement. The Parties recognize that co-management may also entail a variety of activities for which separate agreements may be desirable. Such agreements may include agreements for funding, grant opportunities, staffing, services, and procurement of goods, and shall conform to all applicable legal requirements.

G. Development of Projects of Mutual Interest. The Parties agree to collaborate in the preparation and review of project proposals of mutual interest that support the co-management areas of engagement and the purpose of this Agreement. The Parties will review project proposals submitted by the Tribe and Regional Parks and consider each project proposal in relation to the needs and objectives of Tolay Park, this Agreement, and the availability of funds. The Parties shall consider the availability of funds and necessary resources as part of project proposals.

8. DECLARED EMERGENCIES

A. The Parties acknowledge that the Standardized Emergency Management System (SEMS) is the cornerstone of California's emergency response system and the fundamental structure for the response phase of emergency management. The Parties further acknowledge that the Incident Command System (ICS) is a standardized approach to incident management that allows coordination among various jurisdictions and agencies. The Parties agree that as soon as possible Parks Ranger or other official will notify the THPO or the THPO's designee of any known incident.

Confidential records include, but are not limited to, information acquired in confidence by the County from the Tribe to protect cultural resources and tribal cultural resources in the furtherance of this Agreement. Confidential records do not include information that is otherwise available from public sources.

B. Applicable Laws. The County, but not the Tribe, is subject to the California Public Records Act (PRA) (California Government Code Section 6250 et seq.) The Parties acknowledge that the California Legislature has recognized the strong public policy interest in maintaining the confidentiality of information associated with tribal cultural resources in order to ensure those resources remain protected. Archeological site information and reports, records of Native American graves, cemeteries, and sacred places, and records of Native American places, features, and objects described in Sections 5097.9 and 5097.993 of the California Public Resources Code are exempt from disclosure under the California Public Records Act. In the event that one Party provides notice of its intention to terminate, the Parties will meet promptly to discuss the reasons for the notice and try to resolve their differences, pursuant to Section B of Article 6, unless the Parties have already met pursuant to Section B concerning the matter giving rise to the intent to terminate. In such case, the Parties shall set forth the date of termination for such obligations in order to complete said obligations.
