

### **Sonoma County Permit and Resource Management Department**

# **Building Construction Services**

Adopted by Board of Supervisors Ordinance No. ####; Effective 07/01/2023

All Building Plan Check and Permit / Inspection fees are based on International Building Code Building Valuation Data Table per section 109.2 and 109.3.

Note: Each section within Permit Sonoma may have to review and approve issuance of a permit. These review fees are not included in the Building Plan Check and Building Permit/Inspection fees.

# **Building Plan Check**

<sup>\*</sup>APPLICATIONS CHARGED AT COST – Fees for projects identified within this fee schedule as "CHARGED AT COST" will be charged on an actual cost basis. A minimum fee, as specified within Ordinance No. 6102, shall be required at the time the application for each such project is submitted. After staff review of the application, a preliminary estimate of costs will be provided to the applicant if the costs are expected to exceed the minimum fee. In this case an additional fee will be required prior to completion of work on the project. Minimum initial "At Cost" deposit is nonrefundable. Revisions to previously approved projects remain "At Cost".

### **Building Valuations**

- 1. Building Valuations shall be derived from the valuations table published by the Building Standards Journal in April 2002 applied to the occupancies and types of construction in the "Square Foot Construction Costs" table published by the International Code Council in February, 2009, as adjusted by the California regional modifier for the San Francisco Bay Area (1.16).
- 2. Building Valuation is used for purposes of determining fees pursuant to Section 108.2 of the 2007 California Building Code. Valuation for structures not specifically listed above shall be based upon the "Other valuation rates (per square foot of building area)" values in Building Valuation Table. When the type of structure is not shown in the table or below, the valuation shall be based on the occupancy and construction type it most nearly resembles. Additions shall be valued at the same rate per square foot as for new construction.
- 3. For the category of "Residential, one- and two-family" there shall be two further categories- "Very Good" and "Excellent". "Very Good" shall be valued at 119% of the value in the table. "Excellent" shall be valued at 142% of "Very Good". Tract homes, defined as projects in which at least 10 permits are issued at one time, in which at least 3 of each basic model are constructed, and in which no dwelling is more than 2500 square feet in area, shall be valued at the value in the table. Other dwellings up to 5999 square feet in area shall be valued at the "Very Good" value. Dwellings larger than 5999 square feet shall be valued at the "Excellent" value.
- 4. Reduce valuation 20% for shell only buildings.
- 5. Reduce valuation 60% for foundations only.
- 6. Remodels: (Work on an existing building which does not increase the area of the building.) The valuation of a remodel equals the area of the remodel times 65% of the valuation for a new structure of the same occupancy and construction type. Where no structural floor or roof changes are made, the valuation shall be 45% of new construction. Where no structural changes are made, the valuation shall be the same as a Repair In Kind permit.
