SUBJECT: LIST OF QUALIFIED CONSULTANTS FOR BIOTOXICITY MONITORING SERVICES - NOT TO BE USED FOR FEDERALLY FUNDED PROJECTS

The California Regional Water Quality Control Board routinely requires water and wastewater to be tested for a variety of toxins. This work requires highly-trained and skilled laboratory expertise.

On April 20, 2021, Sonoma County Water Agency, Russian River County Sanitation District, and Sonoma Valley County Sanitation District (collectively “Sonoma Water”) issued a Request for Statements of Qualifications (RFQ) to the following four firms:

- AQUA-Science LLC, Davis, CA
- Control Laboratories, Watsonville, CA
- McCampbell Analytical, Pittsburgh, CA
- Pacific EcoRisk, Inc., Fairfield, CA

The RFQ was also posted on the Sonoma County Water Agency and County of Sonoma Purchasing Department websites.

The five firms listed below submitted Statements of Qualifications (SOQs):

- Alpha Analytical Laboratories, Inc., Ukiah, CA
- AQUA-Science LLC, Davis, CA
- Eurofins Eaton Analytical, LLC, Monrovia, CA
- Pacific EcoRisk, Inc., Fairfield, CA
- Wood Environment & Infrastructure Solutions, Inc., San Diego, CA

The following criteria were used to evaluate each firm:

- Thoroughness of SOQ
- Professional qualifications and demonstrated ability to perform the work
- Exceptions to standard terms in the sample agreement
- Local Service Provider Preference

Based on the evaluations, the following respondents were selected for the list of qualified consultants:

Name of Firm	DIR Registered? Y/N
AQUA-Science LLC	N
Pacific EcoRisk, Inc.	Y
Wood Environment & Infrastructure Solutions, Inc.	Y

For projects requiring biotoxicity monitoring and related services, Sonoma Water will contact individual firms from the above list to determine availability and potential conflict of interest with other projects that the firm is undertaking, and to prepare a cost proposal to perform the work.

SOQs and evaluation forms have been sent to Central Records.
