Consultant agrees to provide a complete defense for any claim or action brought against District based upon a claim relating to such Consultant's or its agents', employees', contractors', subcontractors', or invitees' performance or obligations under this Agreement. Consultant's obligations under this Section 5 apply whether or not there is concurrent negligence on District's part, but to the extent required by law, excluding liability due to District's conduct. District shall have the right to select its legal counsel at Consultant's expense, subject to Consultant's approval, which shall not be unreasonably withheld. This indemnification obligation is not limited in any way by any limitation on the amount or type of damages or compensation payable to or for Consultant or its agents under workers' compensation acts, disability benefits acts, or other employee benefit acts.

6. Insurance. With respect to performance of work under this Agreement, Consultant shall maintain and shall require all of its subcontractors, consultants, and other agents to maintain, insurance as described in Exhibit E, which is attached hereto and incorporated herein by this reference.

8. Modifications to Agreement. Extra or changed work or other modifications to this Agreement shall not be effective unless and until such change is evidenced by a writing signed by both parties. Minor changes, which do not increase the amount paid under the Agreement, and which do not significantly change the scope of work or significantly lengthen time schedules may be executed by the District's General Manager in a form approved by District Counsel. The District's Board of Directors must authorize all other modifications to this Agreement. The parties expressly recognize that, pursuant to Sonoma County Code Section 1-11, District personnel are without authorization to order extra or changed work or waive Agreement requirements. Failure of Consultant to secure such written authorization for extra or changed work shall constitute a waiver of any and all right to adjustment in the Agreement price or Agreement time due to such unauthorized work and thereafter Consultant shall be entitled to no compensation whatsoever for the performance of such work. Consultant further expressly waives any and all right or remedy by way of restitution and quantum meruit for any and all extra work performed without such express and prior written authorization of the District.

9. Representations of Consultant.

9.1 Standard of Care. District has relied upon the professional ability and training of Consultant as a material inducement to enter into this Agreement. Consultant hereby

agrees that all its work will be performed and that its operations shall be conducted in accordance with generally accepted and applicable professional practices and standards as well as the requirements of applicable federal, state and local laws, it being understood that acceptance of Consultant's work by District shall not operate as a waiver or release.

9.2 Status of Consultant. The parties intend that Consultant, in performing the services specified herein, shall act as an independent contractor and shall control the work and the manner in which it is performed. Consultant is not to be considered an agent or employee of District and is not entitled to participate in any pension plan, worker's compensation plan, insurance, bonus, or similar benefits District provides its employees. In the event District exercises its right to terminate this Agreement pursuant to Article 4, above, Consultant expressly agrees that it shall have no recourse or right of appeal under rules, regulations, ordinances, or laws applicable to employees.

Consultant agrees to file federal and state tax returns and pay all applicable taxes on amounts paid pursuant to this Agreement and shall be solely liable and responsible to pay such taxes and other obligations, including, but not limited to, state and federal income and FICA taxes. Consultant agrees to defend, indemnify, and hold District harmless from any liability which it may incur to the United States or to the State of California as a consequence of Consultant's failure to pay, when due, all such taxes and obligations. In case District is audited for compliance regarding any withholding or other applicable taxes, Consultant agrees to furnish District with proof of payment of taxes on earnings under this Agreement.

9.4 Records Maintenance. Consultant shall keep and maintain full and complete documentation and accounting records concerning all services performed that are compensable under this Agreement and shall make such documents and records available to District for inspection at any reasonable time. Consultant shall maintain such records for a period of four (4) years following completion of work hereunder.

Consultant covenants that it presently has no interest and that it will not acquire any interest, direct or indirect, that represents a financial conflict of interest under state law or that would otherwise conflict in any manner or degree with the performance of its services hereunder. Consultant further covenants that in the performance of this Agreement no person having any such interests shall do work under this Agreement for Consultant. In addition, if requested to do so by District, Consultant shall complete and file, and shall require any other person doing work under this Agreement for Consultant to complete and file a "Statement of Economic Interest" with District disclosing Consultant's or such other person's financial interests.

9.6 Statutory Compliance/Living Wage Ordinance. Consultant agrees to comply with all applicable federal, state and local laws, regulations, statutes and policies, including but not limited to the County of Sonoma Living Wage Ordinance, applicable to the services provided under this Agreement as they exist now and as they are changed, amended or modified during the term of this Agreement. Without limiting the generality of the foregoing, Consultant expressly acknowledges and agrees that this Agreement is subject to the provisions of Article XXVI of Chapter 2 of the Sonoma County Code, requiring payment of a living wage to covered employees. Noncompliance during the term of the Agreement will

be considered a material breach and may result in termination of the Agreement or pursuit of other legal or administrative remedies.

9.7 Nondiscrimination. Without limiting any other provision hereunder, Consultant shall comply with all applicable federal, state, and local laws, rules, and regulations in regard to nondiscrimination in employment because of race, color, ancestry, national origin, religion, sex, marital status, age, medical condition, pregnancy, disability, sexual orientation or other prohibited basis, including without limitation, the District's Non-Discrimination Policy. All nondiscrimination rules or regulations required by law to be included in this Agreement are incorporated herein by this reference.

9.8 AIDS Discrimination. Consultant agrees to comply with the provisions of Chapter 19, Article II, of the Sonoma County Code prohibiting discrimination in housing, employment, and services because of AIDS or HIV infection during the term of this Agreement and any extensions of the term.

9.9 Assignment of Rights. Consultant assigns to District all rights throughout the world in perpetuity in the nature of copyright, trademark, patent, right to ideas, in and to all versions of the plans and specifications, if any, now or later prepared by Consultant in connection with this Agreement. Consultant agrees to take such actions as are necessary to protect the rights assigned to District in this Agreement, and to refrain from taking any action which would impair those rights. Consultant's responsibilities under this provision include, but are not limited to, placing proper notice of copyright on all versions of the plans and specifications as District may direct, and refraining from disclosing any versions of the plans and specifications to any third party without first obtaining written permission of District. Consultant shall not use or permit another to use the plans and specifications in connection with this or any other project without first obtaining written permission of District.

9.10 Ownership and Disclosure of Work Product. All reports, original drawings, graphics, plans, studies, and other data or documents ("documents"), in whatever form or format, assembled or prepared by Consultant or Consultant's subcontractors, consultants, and other agents in connection with this Agreement shall be the property of District. District shall be entitled to immediate possession of such documents upon completion of the work pursuant to this Agreement. Upon expiration or termination of this Agreement, Consultant shall promptly deliver to District all such documents, which have not already been provided to District in such form or format, as District deems appropriate. Such documents shall be and will remain the property of District without restriction or limitation. Consultant may retain copies of the above-described documents but agrees not to disclose or discuss any information gathered, discovered, or generated in any way through this Agreement without the express written permission of District.

9.11 Authority. The undersigned hereby represents and warrants that he or she has authority to execute and deliver this Agreement on behalf of Consultant.

9.12 Subcontracts. Consultant shall require all subcontractors to enter into an agreement which shall provide to District all the same rights and protections as set forth in this Agreement at Section 9 (Representations of Consultant), Section 6 (Insurance), and Section 5 (Indemnity), so as to require all such subcontractors to indemnify and defend District to

the full extent of Consultant's indemnity and defense obligations.

10. Demand for Assurance. Each party to this Agreement undertakes the obligation that the other's expectation of receiving due performance will not be impaired. When reasonable grounds for insecurity arise with respect to the performance of either party, the other may in writing demand adequate assurance of due performance and until such assurance is received may, if commercially reasonable, suspend any performance for which the agreed return has not been received. "Commercially reasonable" includes not only the conduct of a party with respect to performance under this Agreement, but also conduct with respect to other agreements with parties to this Agreement or others. After receipt of a justified demand, failure to provide within a reasonable time, but not exceeding thirty (30) days, such assurance of due performance as is adequate under the circumstances of the particular case is a repudiation of this Agreement. Acceptance of any improper delivery, service, or payment does not prejudice the aggrieved party's right to demand adequate assurance of future performance. Nothing in this Section 10 limits District's right to terminate this Agreement pursuant to Section 4.

11. Assignment and Delegation. Neither party hereto shall assign, delegate, sublet, or transfer any interest in or duty under this Agreement without the prior written consent of the other, and no such transfer shall be of any force or effect whatsoever unless and until the other party shall have so consented.

In all other instances, notices, invoices and payments shall be effective upon receipt by the recipient. Changes may be made in the names

and addresses of the person to whom notices are to be given by giving notice pursuant to this paragraph.

13. Miscellaneous Provisions.

13.1 No Waiver of Breach. District's choice not to exercise, or delay in exercising, any right, power or privilege under this Agreement shall not operate as a waiver; nor shall any single or partial exercise of any right, power or privilege preclude any other or further exercise thereof. Waiver by District of a breach of any provision of this Agreement must be in writing and shall not operate or be construed as a waiver of any subsequent breach of the same or any other term or promise contained in this Agreement.

13.2 Construction and Severability. To the fullest extent allowed by law, the provisions of this Agreement shall be construed and given effect in a manner that avoids any violation of statute, ordinance, regulation, or law. Scope of Work

Opportunities for connection to agriculture and open lands are critical for cultivating appreciation for our food system, creating healthy communities, conserving natural resources, and generating community support for working and natural land protection. We offer unique, interdisciplinary, and comprehensive county-wide programs that inspire our youth and community to explore Sonoma County's agricultural and open lands, which align with the goals and objectives in the Vital Lands Initiative.

We propose to feature Ag + Open Space properties protected by conservation easements throughout Sonoma County as outdoor classrooms for students through the TEAM, Harvest of the Month, and FARMS Leadership Programs. The RCD will collaborate with School Garden Network (SGN) and Envirchment to provide elementary and middle school students with opportunities to engage with local, protected farms through both in-class activities and farmbased field days. The RCD will also collaborate with Gold Ridge Resource Conservation District (GRRCD) to host tours on protected properties for targeted audiences, including families of students engaged in our programming and urban communities In total, 42 TEAM field trips, 18 FARMS Leadership program field trips, and 54 Harvest of the Month (HOTM) lessons with a minimum of 6 paired field days will be conducted during the 36-month contract.

The RCD is committed to fostering diversity, equity, and inclusion in our community education program planning and delivery. Our conservation education programs serve Sonoma County's community and are committed to providing a safe, equitable, and inclusive learning environment for all participants. Our team believes everyone should have access to the healing benefits and awe of our natural environment. We are currently prioritizing the delivery of our conservation education programs to Title 1 and continuation schools. The RCD has dedicated services through various conservation planning and on-the-ground programs to disadvantaged communities and historically underserved producers. Our goal is to promote a culture that appreciates, reflects and brings awareness to the people who have cared for the land since time immemorial.

Youth Education

TEAM Program

The TEAM Program will teach elementary students about the role agriculture plays in our local economy and in enhancing our watersheds and ecosystems. Developed 16 years ago, this program is the cornerstone of the RCD's elementary agricultural and environmental education programming. Since 2010, more than 5,700 students have explored farms through the TEAM program. The RCD proposes to work in partnership with Ag + Open Space to enhance our existing suite of unique and stimulating on-farm field trips. By 2029, we propose to implement a total of 42 field trips with pre- and post-trip classroom visits totaling approximately 320 hours of direct education. Approximately 1,134 (27 students/trip) students will be served during the contract period. Schools throughout Sonoma County will be provided the opportunity to experience our protected agricultural lands, especially because the off-site learning opportunity is entirely free. Most schools served by the TEAM Program are Title 1 and more than two-thirds of participating students receive free or reduced-price lunches at school. Contract-funded bus stipends, well-structured programming, and flexible scheduling will make it possible for schools with tight budgets and schedules to participate in this valuable program.

Part of the unique success of this program has been because our field trips are on private properties protected by Ag + Open Space that are normally not accessible to the public. Thanks to the generosity of participating farmers and ranchers thousands of students, parents, and teachers have seen first-hand how producers tend to the fertile and beautiful landscapes that we call home. They've also learned about the essential role Ag + Open Space plays in permanently protecting these spaces, benefitting both our local communities and ecosystems. This knowledge is not just interesting; it's essential education for our community and contributes to life-long appreciation of good land stewardship.

During the contract period, TEAM staff will engage students both in the classroom and in the field with fun, hands-on interactive activities that are designed to get students playing, questioning, observing, and reflecting, all while adding to their understanding of the natural world. Highly-qualified staff will facilitate trips and share their knowledge about each

site and its history, ecology, and agronomy. The program curriculum is already aligned with NGSS and connects to California State Science Standards and California Education and the Environment Initiative. We have already translated materials for classroom visits and field days into Spanish, and our staff will provide translation support whenever possible. To ensure our existing curriculum remains culturally-relevant to our audiences and their unique lived experiences, our staff will continue to update materials using respected resources from partners, such as Redbud Resource Group and Sonoma County Office of Education (SCOE). Sonoma RCD will use this contract timeline to appropriately incorporate tribal education components to each of our host sites in an effort to highlight the culture and knowledge of tribal groups in our community. These updates help root our programs in justice, equity, diversity, and inclusion. We also propose to implement a pre-survey to help us better understand the language needs of each class as well as a post-survey that provides honest feedback on how we can continue to strengthen our offerings for English-Language Learners.

In total, 42 TEAM trips would be delivered to local 3-5th-grade classes with a total of 84 classroom visits equating to over 320 hours of direct education. Currently, two easement properties host the TEAM program: Dutton Apple Ranch (orchard) and Open Field Farm (diversified ag). We would also use the first contract year to evaluate and revitalize the curriculum built on past TEAM sites, like Duckworth Family Farm or Bianchi Dairy, and Gilardi Ranch, to identify new host sites for the following two years.

FARMS Leadership & Advanced Programs

The long-standing FARMS Leadership program will directly engage with the county's local agricultural producers and stewards of the land. For 28 years, student participants have developed leadership skills and learned about agricultural practices that create healthier ecosystems while discovering agricultural, environmental, and food system career opportunities. Within FARMS, we will offer two complementary programs: FARMS Leadership (Year One) and FARMS Advanced (Year Two). Both programs will connect urban, suburban, and rural youth with our county's open spaces to instill a deep appreciation for our local agriculture and ecosystems and to recognize the community's role in stewarding these spaces. Through our continued partnership with Ag + Open Space, the RCD has continued to enhance our programming by developing relationships with managers of both public and private conserved lands.

In year one, FARMS Leadership, students will attend eight (8) field days that emphasize aspects of food production and distribution, agricultural technology, sustainable management practices, habitat restoration, and more; some of which will take place on conservation easement protected properties. Each month, the group will gather at a local farm, ranch, or associated industry operation to learn about our county's agricultural roots, cutting-edge conservation practices, innovative business models, and what it takes to keep our county healthy and thriving. Students will gain a deeper understanding of agricultural practices and career pathways through speakers and hands-on experiences. Approximately 30 students from six to eight high schools will be accepted based on career interest and leadership development. Two-thirds of participating schools will be continuation high schools or Title l campuses.

During the previous contract period, we strengthened relationships with schools, and our network grew to include both new and previously lapsed schools, including Rancho Cotate, Ridgway, Windsor Oaks, and Amarosa Academy - the latter being the only alternative school for at-risk youth operated by SCOE. Each school will continue to have a lead teacher to chaperone students and support them with their Community Action Project (CAP). CAPs are unique and designed to benefit students' own community. Students also present their CAPs to the cohort during the final field day. Through this process, students build teamwork, leadership, and communication skills while deepening their sense of place.

FARMS Advanced will act as a pipeline for FARMS Leadership alumni. It is designed as a mentorship program that delves into industry threats and natural resource issues while improving workforce development in these fields. FARMS Advanced will build on the foundation created in Leadership, strengthening skills in networking and independent research and broadening the scope of career possibilities. Working with a diverse array of local farmers and ranchers, agency partners, and non-profit watershed leaders, students will develop a deeper land ethic, become informed members of our community, and begin to create an agricultural or resource management professional pathway. Students will craft a final presentation that highlights their learning journey, program takeaways, and a significant problem facing industry as well as a practical solution to it. The cohort has traditionally been made of no more than six FARMS alumni; however, during this contract period, we will broaden the scope to include students currently enrolled in FFA or 4-H programs to improve the equity of access.

Both FARMS programs will incorporate field days on protected properties and will expose students to the relationship between agricultural production and the work Ag + Open Space does to ensure the succession and accessibility of

farming for generations. Students will gain critical knowledge about Ag + Open Space's role in land conservation and how that directly contributes to healthy communities. Field days will ignite a deeper connection to the land by immersing participants in the living systems that sustain our communities. Through firsthand experiences on working agricultural landscapes, students will see how local farms provide not only healthy, locally grown food, but nurture biodiversity, restore ecosystem function, and build resilience to a changing climate. Sonoma RCD will collaborate with many local partners in addition to agricultural businesses to successfully deliver the FARMS programming, including Laguna de Santa Rosa Foundation, Sonoma County Regional Parks, LandPaths, and Sonoma Water.
The scope of work for this program includes the preparation, planning, and implementation of a minimum of 18 field days between the two programs on protected farms and ranches, parks, and open space preserves out of the planned 45 trips. Additionally, we propose to write a curriculum to improve students' confidence in engaging with professionals and support them in crafting and submitting a minimum of one scholarship or job application. Additionally, we will create a matrix to connect FARMS alumni with local professionals as a tool for students, even after the program has ended. A seasonal staff member would directly support the development and implementation of the FARMS Leadership program. Lastly, we plan to continue refining our curriculum by incorporating content related to tax policy and local economic development, green space access as a component of social justice, and habitat connectivity to support species recovery.

Harvest of the Month

A strong need exists to expand agricultural and environmental education for middle school students at a formative stage in their development. Early adolescence is a critical time when lifelong habits, values, and career interests begin to take shape. Connecting youth to local farms and seasonal food not only encourages healthy eating, but also builds food literacy, environmental awareness, and a sense of belonging within their community. Hands-on agricultural experiences help students understand where food comes from, strengthen critical thinking about natural systems, and foster stewardship of the land that can be carried into adulthood and shared across generations.

The Sonoma RCD will expand its partnership with the School Garden Network (SGN) to deliver "Harvest of the Month" (HOTM) programming featuring produce sourced from local farms protected by conservation easements. Originally launched in 2023 through a California Department of Food and Agriculture Farm to School grant, the program advances student wellbeing, economic vitality, environmental resilience, and equity by connecting classrooms and school gardens to locally grown food. Through monthly HOTM lessons from October to May, students engage in standards-aligned activities and taste tests featuring Sonoma County-grown produce while learning about nutrition, seasonality, climate, and the importance of protecting working lands.

The program will launch in three (3) middle schools, partnering with one grade level or elective teacher at each site. In addition to classroom lessons, students will participate in at least two onfarm field days annually, where they will meet producers, tour easement protected properties, and engage in hands-on activities that illuminate the labor, science, and environmental stewardship behind food production. These direct experiences strengthen social-emotional learning, build confidence through experiential learning, and expand students' awareness of agriculture as a meaningful and accessible career pathway.

As part of HOTM, students will learn about the value of protecting our local private farms and the unique role Ag + Open Space has played and will continue to play in sustaining our local food system. We have looked at sourcing produce from farms such as Open Field Farm, Tierra Vegetables, Duckworth, Dutton Apple Orchard, Bianchi Dairy, and Pacheco Dairy. Transportation support will be provided to improve access and reduce barriers to participation. Together, the classroom and on-farm components offered by SGN and the Sonoma RCD will equip students to share with their families the benefits of purchasing locally grown food, supporting farmers, and investing in the long-term protection of Sonoma County's working lands and food system. We anticipate reaching 54 middle school classes, targeting Title 1 schools, serving approximately 270 middle school students, as well as a minimum of six (6) field trips with this programming across the contract term.
