Discussions shall address the following items: unfunded liability cost sharing; pension cost sharing; pension obligation bonds; retiree medical benefits; longevity; and retiree cost of living adjustment. The Committee will make recommendations to the County Administrator and then either party may reopen MOU provisions applicable to those recommendations in June 2022, unless an earlier date is mutually agreed.

Government Code Compliance Requirements:

Various provisions of the California Government Code require certain disclosures before the Board can adopt changes in salaries or benefits, with additional disclosure required for changes in pension and other postemployment benefits. Any changes in salaries and benefits must be adopted at a public meeting of the Board (Cal Gov't Code §23026). Notice of the consideration of such increases must be provided prior to the meeting and shall include "an explanation of the financial impact that the proposed benefit change or salary increase

will have on the funding status of the county employees' retirement system." (Cal Gov't Code §31515.5).

In addition, when considering changes in retirement benefits or other postemployment benefits, the Board "shall secure the services of an actuary to provide a statement of the actuarial impact upon future annual costs, including normal cost and any additional accrued liability, before authorizing changes in public retirement plan benefits or other postemployment benefits." (Cal Gov't Code §7507). When there are changes in retirement benefits or other postemployment benefits, the statement of actuarial impacts shall be provided by an enrolled actuary and shall be made public at a meeting at least two weeks before the adoption of the increase in benefits. (Cal Gov't Code §31516). This staff report recommends the Board adopt changes in the LOCAL 39 MOU, including changes to salary and benefits contributions only, with no changes to pension benefits or other post-employment benefits (retiree medical).

Segal Valuation Analysis

Based on the analysis conducted by Segal Consulting (Segal), the actuaries for the Sonoma County Employees Retirement Association (SCERA), the net impact over the four year MOU term results in an overall decrease in the County's annual contributions, and the actuarial assumptions included in future years' valuations are anticipated to be more than sufficient to cover the costs of all negotiated salary increases and other salary adjustments over the four year term.

The analysis compares proposed labor changes to the following Sonoma County Employees' Retirement Association (SCERA) adopted salary assumptions:

- 3.5% applied to the 2017 Actuarial Valuation used to establish employer and employee pension contribution rates for 2019-20
- 3.25% used in the December 31, 2018 valuation, and to be used for the FY 2020-21, 2021-22, and 2022 -23 contribution rates

The actuarial assumption variations offset increases and decreases from year to year, resulting in an overall net decrease in County costs of \$9,000 over the four fiscal year period and thus, should not materially impact the ongoing cost of the plan of the funding status of SCERA. Segal's analysis of the annual impact over each fiscal year is included in Attachment B, and summarized in the table below.

	Annual Employer Normal Cost	Annual UAAL amortized cost	Total Annual Increased Contribution
	(a)	(b)	(a + b)
Year 1 - 2019/20	+\$1,000	+\$2,000	+\$3,000
