Executive Summary:

The Sonoma County Maternal, Child and Adolescent Health Program promotes the physical, social, and emotional health of childbearing women, children, adolescents, and their families in Sonoma County. The Program's Advisory Board, created in 1982, as required by state legislation, acts in an advisory capacity to the Board of Supervisors through the Department of Health Services. The Sonoma County Maternal, Child and Adolescent Health Advisory Board bylaws specify that members will be appointed by the Board of Supervisors.

Discussion:

The Maternal, Child and Adolescent Health Advisory Board program interacts with community systems as a partner in providing direct safety net services to high risk maternal, child and adolescent populations, as a coordinator of community-wide services and programs, and as a convener of the Maternal, Child and Adolescent Health Advisory Board and other collaborative groups to address emerging health needs in the community. The Maternal, Child and Adolescent Health Advisory Board has been an important vehicle for implementing prevention strategies and coordinating services that benefit the entire community. Partnering with local organizations and individuals is critical to reducing disparities and improving the overall health of women, children and adolescents in Sonoma County.

New Appointments to the Maternal, Child and Adolescent Health Advisory Board

The Sonoma County Maternal, Child and Adolescent Health Advisory Board bylaws specify that members will be appointed by the Board of Supervisors. When vacancies on the Sonoma County Maternal, Child and Adolescent Health Advisory Board occur, the openings are posted on the County website in accordance with the Maddy Act and replacements are recruited from the community. Following procedures outlined in the bylaws, all applications are reviewed by the Maternal, Child and Adolescent Health Advisory Board Chairperson and the Vice-Chairperson, who then make recommendations to the Department of Health Services.
