Ordinance 6238 Exhibit A: Maintenance of Effort Requirement

The proceeds from this measure should not be used to supplant an agency's historical general fund(s) contribution in support of the operating (non-capital project) cost for providing its park and recreation programs, facilities and services. Other than during times of financial downturn or other unexpected event, General Fund contributions, adjusted for onetime funding, should not be less than allocated for the previous fiscal year. For purposes of this section a financial downturn is defined as a time where total general fund revenues for the county/city have declined by 1% or more when compared to the previous year.

Tax proceed recipients (cities and county) with reductions to General Funded Parks Departments due to financial downturn will not be deemed as in violation of the maintenance of effort requirement provided the actual amount of General Funds provided for operating Parks and Recreation programs, facilities and services is no less than the lowest amount provided over the three fiscal years of 15/16, 16/17, and 17/18 as shown in those three years' Adopted Budgets. Tax proceed recipients as part of their budgeting process shall annually determine the budgeted general fund(s) non-capital contributions, adjusted for onetime funding, for parks and recreation uses.
