Resolution of the Board of Directors of the Sonoma County Water Agency declaring that facilities installed as part of the Airport-Larkfield-Wikiup Sanitation Zone Larkfield Estates Collection System Project are Limited Purpose Facilities

**Whereas,** Sonoma County Water Agency ("Sonoma Water") has constructed the Airport-Larkfield-Wikiup Sanitation Zone Larkfield Estates Collection System Project ("Project") in the Larkfield Estates neighborhood near the intersection of Old Redwood Highway and Mark West Springs Road, with construction being substantially complete on August 26, 2020; and

**Whereas,** Sonoma Water has incurred costs to construct the system, which costs will be presented to the Board of Directors after the final accounting; and

**Whereas,** the owners of 66 parcels, as listed in Attachment A, either entered into the loan program with Sonoma Water and agreed to reimburse Sonoma Water for construction of the system, or paid the pro-rated costs before construction, and are eligible to connect to the sewer, subject to ordinary permit conditions; and

**Whereas,** the owner of 1 parcel, APN 058-221-012 at 205 Dover Ct, has committed to pay the pro-rated cost before construction but has not yet made the direct payment so must make the required payment prior to permitting for building or sewer; and

**Whereas,** there are 75 parcels, as listed in Attachment B with frontage along a street where new sewer was constructed, for which connection to the collection system is subject to payment of pro-rated share to connect to new sewer; and

Whereas, there are 10 parcels, as listed in Attachment C, with frontage along a street where they could possibly connect to previously existing sewer, but could also opt for a connection to the newly constructed sewer, so if the parcel owner chooses to connect to newly constructed sewer, then connection to the collection system would be subject to payment of prorata share to connect to new sewer; and

**Whereas,** as of January 20, 2021, Sonoma Water staff has calculated, as shown in attachment D, the pro-rata share of collection system project costs, excluding costs for lateral construction and other parcel specific costs incurred by project participants, to be \$34,277; and

**Whereas,** Sonoma Water Sanitation Code Section 3.29 states that the Agency Board may buy resolution declare that newly constructed facilities to be of limited purpose, and not intended to serve properties.

#### Now, Therefore, Be It Resolved:

- 1) The recitals above are true and correct.
- 2) The Project is deemed to be of limited purpose intended to serve the 66 parcels listed in Attachment A.
- 3) No parcel other than those listed in Attachment A shall have the right to connect or receive service from the Project except upon pro-rated contribution toward its cost.
- 4) Parcels other than those listed in Attachment A may acquire the right to connect, subject to ordinary permitting and fees, upon payment of the pro-rated share of the collection system project costs, currently \$34,277 per parcel in Fiscal Year 2020-2021.
- 5) The pro-rated share shall be automatically adjusted annually each year on July 1 in proportion with the most recent change to the Engineering News Record Construction Cost Index (ENR-CCI) for San Francisco.
