Dear Sheryl,

Re: Enhanced Services Contracts

The Sonoma County Fire Districts Association unanimously supports the extension of the "enhanced services contracts" with the agencies that currently receive this funding while we all work together to pursue a new sales tax measure in 2022 that will improve services throughout Sonoma County. The "enhanced services contracts" assist fire districts with providing critical first responder Fire and EMS services to rural areas of the County.

On behalf of the elected Director members and Fire District leadership, we appreciate your thoughtful consideration of this extension.

Sincerely,

Stephen Akre
President
Sonoma County Fire Districts Association

Sonoma County

Fire Chiefs Association

Dear Sheryl,

The Sonoma County Fire Chiefs Association and our Fire Service Working Group subsection support the extension of the "enhanced services contracts" with the agencies currently receiving that funding while we collaboratively pursue a new fire services sales tax measure in 2022. The extension of this funding will permit our members agencies to continue to provide critical services to the communities that they serve.

Sincerely,
