**Resolution Of The Board Of Supervisors Of The County Of Sonoma, State Of California,
Commending Santa Rosa Community Health On Their 25th Anniversary Of Providing Health
Care To Underserved Residents Of The County Of Sonoma**

Whereas, Santa Rosa Community Health has provided high-quality primary health care for people who are underserved since 1996 and is celebrating its 25th anniversary; and

Whereas, Santa Rosa Community Health began as one site in southwest Santa Rosa with five doctors and one nurse practitioner, and has now grown to encompass eight locations throughout Santa Rosa and employ over 500 people; and

Whereas, every person in our community has the right to the highest-quality, patient-centered health care that respects their language, culture, identity and experience, and Santa Rosa Community Health currently and historically provides this care through family medicine, mental and dental health services, integrative medicine, and other specialty services; and

Whereas, Santa Rosa Community Health makes high-quality health care accessible for over 40,000 members of our community from birth through all the cycles of life, many of whom face systemic inequities that are barriers to health and would not otherwise receive the comprehensive and culturally responsive health care they need; and

Whereas, Santa Rosa Community Health is committed to a just and healthy community where all people can achieve their full potential for health and well-being.

Now, Therefore, Be It Resolved, that Sonoma County Board of Supervisors commends and congratulates Santa Rosa Community Health for 25 years as a vital resource for the health of our community and as an integral partner with the county in the promotion of health, education, and access to care.
