Government Code Compliance Requirements:

Various provisions of the California Government Code require certain disclosures before the Board can adopt changes in salaries or benefits, with additional disclosures required for changes in pension and other post-employment benefits (OPEB). Any changes in salaries and benefits must be adopted at a public meeting of the Board (Cal Gov't Code §23026). Notice of the consideration of such increases must be provided prior to the meeting the Board acts and shall include "an explanation of the financial impact the proposed benefit change or salary increase will have on the funding status of the county employees' retirement system." (Cal Gov't Code §31515.5).

In addition, when considering changes in retirement benefits or other postemployment benefits, the Board “shall secure the services of an actuary to provide a statement of the actuarial impact upon future annual costs, including normal cost and any additional accrued liability, before authorizing changes in public retirement plan benefits or other postemployment benefits.” (Cal Gov’t Code §7507). When there are changes in retirement benefits or other postemployment benefits, the statement of actuarial impacts shall be provided by an enrolled actuary and shall be made public at a meeting at least two weeks before the adoption of the increase in benefits. (Cal Gov’t Code §31516).

Segal Valuation Analysis of Cost of Living and Equity Adjustments

Based on the analysis conducted by Segal Consulting (Segal), the actuaries for the Sonoma County Employees Retirement Association (SCERA), the net impact over the three-year MOU results in an increase in the annual employer contributions, as the actuarial assumptions included in prior valuations are not sufficient to cover the costs of all negotiated cost of living and equity adjustments over the three-year term.

The analysis compares proposed cost of living and equity adjustments to the following Sonoma County Employees’ Retirement Association (SCERA) adopted salary assumptions:

- 3.25% applied to the December 31, 2020 Actuarial Valuation used to establish employer and employee pension contribution rates for FY 2022-23
- 3.00% applied to the December 31, 2021 valuation used to establish employer and employee contribution rates for FY 2023-24, and will be used to establish contribution rates for FY 2024-25 and FY 2025/26

The actuarial assumption variations from year to year offset some annual increases and decreases, resulting in a net increase of \$3,298,000 over the term of the MOU. Staff’s review of the average annual increase spread over the current and three fiscal years is approx. \$824,500, which should not materially impact the ongoing cost of the plan or the funding status of SCERA. Segal’s analysis of the annual impact for the current and each of the three fiscal years of the MOU are included in Attachment C. The following table summarizes the annual impact and net overall increased County costs over the four fiscal years:

	Change in Annual Employer Normal Cost	Change in Annual UAAL amortized cost	Total Annual Increased Contribution
	(a)	(b)	(a + b)
Remaining 2022/23	+\$34,000	+\$60,000	+\$94,000
Year 1 - 2023/24	+\$878,000	+\$1,550,000	+\$2,428,000
Year 2 - 2024/25	+\$298,000	+\$527,000	+\$825,000
Year 3 - 2025/26	-\$18,000	-\$31,000	-\$49,000
Net Increased Costs over 3-year term	+1,192,000	+2,106,000	+3,298,000

Segal Valuation Analysis of Changes to Retiree Medical

Tentative Agreement 2 adds Article 13.6.D to allow future retirees who reside out of a County offered medical plan service area, the option to place the current monthly retiree medical contribution into the Retiree Health Reimbursement Account (HRA). At present, a retiree must be enrolled in a County sponsored medical plan to receive the monthly retiree medical contribution. Any future retiree opting for a contribution into the HRA will be responsible for all premium costs, including Medicare Part B. Providing this option allows future retirees who live or move out of a service area the opportunity to access this benefit, thus participation in the benefit may increase slightly. This benefit is available to bargaining unit members who were hired before 1/1/2009.

Based upon the actuarial analysis by Segal Consulting, this change slightly decreases the OPEB liability by (0.08%) or (\$23,403) for the bargaining units represented by SEIU, as illustrated below and in Attachment D.

OPEB Liabilities as of June 30, 2022	Pre-2009 SEIU Current Benefit	Proposed \$500/Mo HRA	\$ Impact	% Impact
Implicit Subsidy	\$9,915,965	\$9,544,116	(\$371,849)	(3.75%)
Medicare Part B	\$2,249,969	\$2,168,645	(\$81,324)	(3.61%)
Cash Subsidy	\$16,780,781	\$17,210,551	\$429,770	2.56%
Total OPEB Liability	\$28,946,715	\$28,923,312	(\$23,403)	(0.08%)

In accordance with Government code section 7507, the recommendation is for your Board to receive and review this information and staff will return at a later date, with a recommendation to adopt Tentative Agreement 2 to be effective July 1, 2023.
