Title:
Consolidated Fee Hearing - Delinquent Unsecured Collection Fee

Recommended Action:
Approval of Resolution of the Board of Supervisors of the County of Sonoma, State of California, authorizing the Auditor-Controller-Treasurer-Tax Collector's Office to increase the charge for Delinquent Unsecured Collection Fee from \$35 to \$100.

Executive Summary:
Pursuant to Revenue and Taxation Code 2903, the Tax Collector shall collect delinquent taxes on unsecured property; and, according to Revenue and Taxation Code 2922(e) the Tax Collector is allowed to recover the actual costs incurred by the County up to the time that the delinquency is paid. We are requesting an increase in the Delinquent Unsecured Collection Fee (previously referred to as the 'Unsecured Transfer fee') from \$35 to \$100.

Discussion:
Unsecured property is taxable personal property that is tangible or moveable and not attached to real estate. Annually, unsecured property tax bills are due in a single installment on August 31st unless the Tax Collector files for and is granted an extension by the State Controller's Office in which case bills are due on September 30th. Unsecured tax bills become delinquent at 5:01 p.m. on the due date.

Currently, the Sonoma County Auditor-Controller-Treasurer-Tax Collector's office attaches a \$35 fee to each

delinquent unsecured tax bill at the time delinquency occurs which, in accordance with Revenue and Taxation Code 2292(e), is intended to recover the actual cost of collection. The \$35 fee has been in place for over 20 years.

A review of this fee for FY 2018-19 shows the cost of collecting delinquent unsecured taxes exceeded fee revenue collected by approximately \$263,750. This is due to 1) the high rate of non-collection associated with unsecured taxes and, 2) an insufficient fee amount.

Effective July 1, 2020, the Auditor-Controller-Treasurer-Tax Collector is requesting to increase the delinquent unsecured collection fee from \$35 to \$100. The increased fee is estimated to generate additional revenue of \$113,750 and reduce the net cost of collecting delinquent unsecured taxes from \$263,750 to \$150,000. The gap in funding is a result of setting the fee based on the total number of Delinquent accounts being pursued for collection and doesn't contemplate accounts anticipated to remain uncollected.

Unsecured taxes are statutorily limited to a personal lien against the owner of record which does not allow property be sold at auction in order to pay delinquent taxes. Conversely, secured taxes are by law a lien on real property, which has priority over all other liens on the property and tax defaulted property is subject to power of sale for nonpayment of taxes. As a result, delinquent unsecured taxes will continue to have a higher rate of non-collection than secured taxes and a net cost associated with collections.
