Executive Summary:

The California Water Code, requires owners of State-regulated dams, to prepare Emergency Action Plans containing inundation map(s) for emergency preparedness and submit to the California Governor's Office of Emergency Services for approval. Staff is requesting the Board authorize Sonoma County Water Agency's General Manager to execute an agreement with Brelje & Race Consulting Engineers for preparation of emergency action plans and related services for Sonoma Valley County Sanitation District's (District) and

Sonoma County Water Agency's Airport/Larkfield/Wikiup Sanitation Zone's (Zone) reservoir-dams, and Flood Control Reservoirs in Flood Control Zone 1A to meet the requirements set by California Senate Bill 92 which set forth new requirements for dam safety.

Discussion:

HISTORY OF ITEM/BACKGROUND

On June 27, 2017, Senate Bill 92 was signed into law, which set forth new requirements focused on dam safety. Dam owners are now required submit inundation maps to the Department of Water Resources for approval.

In addition, Sections 6160 and 6161 were added to the Water Code, requiring owners of State-regulated dams, except those classified as low hazard, to prepare Emergency Action Plans containing inundation map(s) for emergency preparedness and submit to the California Governor's Office of Emergency Services. The deadline for submitting the Emergency Action Plans is based upon hazard classification of 1) Extremely High; 2) High; and 3) Significant. The Emergency Action Plans, including the inundation map(s), must be updated every ten years, but if relevant circumstances change and raise the hazard classification, the update must be made sooner.

On October 19, 2017, emergency regulations were adopted to provide standards for preparing and submitting inundation maps to the Division of Safety of Dams for review and approval pursuant to Senate Bill 92.

Under this Agreement, Consultant will prepare Emergency Action Plans and inundation maps for the Sanitation District's and Zone's reservoirs. In addition, Consultant will review and revise the existing emergency action plans for Flood Control Zone 1A's flood control dams. Tasks will also include project management and data collection and review.

SELECTION PROCESS

On May 17, 2019, Sonoma County Water Agency issued a Request for Statements of Qualifications to 36 firms included in the attached list.

The Request for Statements of Qualifications was also posted on the Sonoma County Water Agency and County of Sonoma Purchasing Department websites.

Statements of Qualifications were submitted by the 22 firms included in the attached list.

The following criteria were used to evaluate each firm:

1. Thoroughness of SOQ.
2. Professional qualifications and demonstrated ability to perform the work.
3. Exceptions to standard terms in the sample agreement.

Brelje & Race Consulting Engineers (Consultant) was selected because Consultant is familiar with Senate Bill 92 and with the preparation of inundation maps and emergency action plans. Consultant has prepared emergency actions plans for local agencies in Sonoma and Mendocino Counties.

Sonoma County Water Agency may seek to amend or enter into subsequent agreement(s) with Board approval if required, relying upon this competitive selection process, after the preliminary or initial work is completed.

SERVICES TO BE PERFORMED

Under the proposed agreement, the consultant will prepare Emergency Action Plans and inundation maps for the Sonoma Valley County Sanitation District and Airport/Larkfield/Wikiup Sanitation Zone reclamation reservoirs. In addition, consultant will review and revise the existing Emergency Action Plans for Flood Control Zone 1A's flood control dams. Furthermore, the consultant will provide project management and data collection and review.

The cost of services will not exceed \$300,000. This agreement covers services rendered from March 25, 2020 to July 30, 2021.

The agreement includes two options for Sonoma County Water Agency and District to extend this agreement for a period of one year each by providing written notice to Consultant thirty days in advance of the expiration date of the agreement and of the first extension option.
