Title:

Award of the 2021 Drainage Culvert Replacement Program Contract, C21310

Recommended Action:

- A) Approve the project plans and specifications for the 2021 Culvert Replacement Program, C21310.
- B) Award contract to low bidder Team Ghilotti, Inc., in the amount of \$527,141.00, approve a 10% for construction contingency in the amount of \$52,714.10, for a total amount not to exceed \$579,855.10, and authorize the Chair to execute the construction contract for C21310.

(First, Second, Fourth and Fifth District)

Executive Summary:

This project is part of the on-going effort of the Board of Supervisors (Board) to invest in resilient infrastructure as identified in the County's 2021 Five Year Strategic Plan. The Department of Transportation and Public Works (TPW) is prioritizing drainage culvert replacements within key access routes.

As the second year of this annual Culvert Replacement Program, this project will entail replacement of existing culverts and installation of new drainage facilities to preserve pavement and increase resiliency of the selected road segments.

TPW recommends award of the construction contract for the 2021 Culvert Replacement Program, C21310, to low bidder Team Ghilotti, Inc.

Discussion:

The 2021 Culvert Replacement Program, C21310, is the second iteration of the annual Culvert Replacement

Program series. The 2021 project consists of structural excavation to remove and replace existing cross culverts, ditching, and slope protection. Trenches are then backfilled, paved and striped.

This project will prolong the roadways useful life by enhancing drainage and providing structurally sound road segments to better serve the public.

Specific culvert replacement locations can be found listed below and on the attached Location Map.
