**Title:**  
8:35 A.M. Jenner Water System Financing

### Recommended Action:

Conduct a public hearing on the annual written report for County Service Area No. 41 Jenner Zone of Benefit and adopt the resolution ordering the annual water charge to be collected on the County of Sonoma tax roll for the total amount of \$7,662 for Fiscal Year 2021-2022. (4/5<sup>th</sup> Vote Required)(Fifth District)

### Executive Summary:

State law and regulations require that an annual public hearing be held by the Board of Supervisors to direct that annual loan repayments be collected on the County of Sonoma tax roll. The Department of Transportation and Public Works (TPW) is recommending that the Board adopt the attached resolution ordering that the annual repayment charge for a loan used for water system improvements be collected on the County of Sonoma tax roll for the total amount of \$7,662 for Fiscal Year 2021-22.

### Discussion:

#### Background

The Jenner Water System is located in the unincorporated County on the Pacific Ocean (see Attachment 3). The system has one hundred and twenty three (123) connections, all with a 5/8-inch meter. Of the total accounts, one hundred and sixteen (116) are residential customers and seven (7) are commercial customers. Several of the commercial property owners have more than one meter on their property. There are one hundred and fifteen 115 property owners that have annual assessments on the County's tax roll to repay the loan obtained from the State of California to rehabilitate the water system.

## **Annual Written Report**

Each fiscal year, Health and Safety Code section 5473 requires that the Board of Supervisors, as the governing board for the County Service Areas, hold a public hearing and adopt a resolution directing that the annual charge levy be collected on the County's property tax rolls. The total annual charge levy to be collected on each parcel is detailed on the attached written report, which is a listing of the Assessor's parcel numbers and the dollar amount of the annual charge levy. The amount of anticipated revenues from the charge levy and the biannual payments to the State of California are budgeted in the Fiscal Year 2021-22 adopted budget for the Jenner Water System debt service funds.

On July 18, 1989, the Board of Supervisors authorized the Director of Transportation and Public Works to execute the 30-year agreement with the California State Department of Water Resources, in the amount of \$956,800, to cover the costs of acquiring the Jenner Water System from the Jenner Water Works, and purchasing and installation of water main and supply lines, pumps and pumping equipment, a 100,000 gallon storage tank, water treatment system, and building. The loan obligation was paid in full last Fiscal Year 2020-21.

On December 16, 2008, the Board approved a 20-year agreement with the California Department of Public Health for a Safe Drinking Water Loan, in the amount of \$120,000, to fund the purchase, transportation, and installation of a new micro-filtration water treatment plant purchased from the California Water Service Corporation for the then 15-year-old treatment facility in order to meet more stringent State of California water quality standards. The annual charge levy for repayment of this loan is \$57 per equivalent single family dwelling per year for the term of the loan obligation. The final payment for this loan will be made in Fiscal Year 2029-30.

The total annual charge to be collected on each parcel is detailed on the attached written report. Annual charges are budgeted in the approved Fiscal Year 2021-22 budget for the Jenner Water District debt service funds.

Notice of a Public Hearing was published on September 13, 2021, once a week for two consecutive weeks in a newspaper of general circulation whose distribution includes the Jenner Water District.
