Title:
Sonoma Developmental Center Specific Plan Services Contract Amendment

Recommended Action:

Authorize the Director of Permit Sonoma to negotiate, finalize, and execute the first amendment to the agreement with Dyett and Bhatia, Urban and Regional Planners expanding and modifying the scope of work for preparation of the Sonoma Developmental Center Specific Plan and Environmental Impact Report, and increasing the contract amount by \$238,328 to a total not-to-exceed amount of \$1,714,277.

Executive Summary:

In December 2019, the Director of Permit Sonoma executed an agreement with Dyett and Bhatia, Urban and Regional Planners (Dyett and Bhatia), to prepare a Specific Plan and environmental impact report for the former Sonoma Developmental Center. This item presents an amendment to the agreement to accommodate tasks not contemplated in the original scope of work. Staff recommends that the Board authorize the Director to execute an amendment to the agreement with Dyett and Bhatia to modify the scope of work and increase the contract amount by \$238,328.

Discussion:

California Government Code Section 14670.10.5 authorizes the California Department of General Services (DGS) to contract with the County of Sonoma for planning and environmental review services related to the 945-acre Sonoma Developmental Center (SDC) property in Sonoma Valley. On December 17, 2019, the Board of Supervisors approved a contract with DGS for those services and at the same time authorized a contract with Dyett and Bhatia (Consultant) to provide the County support in preparing the SDC Specific Plan and Environmental Impact Report. As the County continues to meet its commitments as outlined in State

legislation for disposition of the State-owned property, staff recommends increasing the original contract amount (\$1,475,949) by \$238,328 to compensate the Consultant for the following additional tasks added to the scope of work. The additional work was added to ensure that the County is successful in meeting its commitments to complete the project by December 2022, and to meaningfully engage with stakeholders and the communities impacted by the redevelopment of SDC. As the project is on a tight timeline, the Contractor commenced the new tasks, in addition to continued work on existing items under the scope of work.

- Outreach to additional bodies and agencies.
- Expanded community outreach to underrepresented communities.
- Clarification of vision and guiding principles.
- Use of an existing water supply assessment to review and provide edits for consistency with State law.
- Additional work on project alternatives.
- Open house meetings to present draft goals and policy topics to the public.
